## HARDING TOWNSHIP BOARD OF ADJUSTMENT MINUTES SPECIAL MEETING MARCH 31, 2022 7:00 PM

#### CALL TO ORDER AND STATEMENT OF COMPLIANCE

The Board Chair, Mr. Flanagan called the special meeting of the Board of Adjustment to order at 7:00 and announced that adequate notice of the meeting had been made in accordance with the New Jersey State Open Public Meetings Act..

### **REGULAR MEETING**

#### ROLL

Ms. Taglairino called the roll. It went as follows:

Mr. Cammarata	Excused	Mr. Newlin	Present	Mr. Maselli	Present
Mr. Addonizio	Present	Ms. Sovolos	Present	Mr. Boyan	Present
Mr. Rosenbaum	Present	Mr. Symonds	Present	Mr. Flanagan	Present

Board Engineer, Mr. Fox and Board Planner, Ms. Mertz and Ms. Taglairino were also present. Attorney, Mr. Mlenak was present for the Verizon application.

#### **OLD BUSINESS**

Application BOA# 17-18 New York SMSA Limited Partnership d/b/a Verizon

Wireless

8 Millbrook Road, B17/L1, PL Zone

Applicant requesting variance relief for use, per N.J.S.A.

40:55D-70(d) for a cell tower.

Presenting:

Richard Schneider, Attorney Dr. Bruce Eisenstein, RFP Specialist James Murawski, Engineer William Masters, Planner

Robert Simon, Objecting attorney for this application.

The applicant re-presented a proposal for a reduced tower of 80 -86 feet in height with a slight shift in location within the lease site.

Mr. Simon presented his questions for Mr. Murawski and Mr. Masters.

The application is carried until to a May 10, 2022 meeting with no further notice and an extension of the FCC Shot Clock.

A transcript of the testimony is appended to the minutes.

## **OTHER BUSINESS**

None

## **ADJOURNMENT**

Mr. Flanagan adjourned the meeting at 10:42

Lori Taglairino

Respectfully submitted by Lori Taglairino, Board of Adjustment Secretary

So for this Special Meeting tonight the only application on the agenda is the Verizon cell phone tower application. Mr. Schneider, welcome back. And I think in just 30 seconds please tell us what your plan is for tonight, and how you think the evening will plan out and what your goal is tonight in terms of getting things accomplished.

MR. SCHNEIDER: Good evening, Mr. Chairman, fellow members of the Board, members of the Public. Once again, for the record, Richard Schneider with the law firm of Vogel, Chait, Collins and Schneider on behalf of the Applicant, Verizon Wireless.

14 In terms -- in 30 seconds or less, Mr. 1.5 Chairman, the game plan tonight is to present two 16 witnesses, hopefully brief, to -- and I'll get into 17 this in a minute -- to address what I'll call comments 18 or recommendations made by the Board to further manage 19 for the Applicant's consideration. Specifically, the 20 Applicant intends to briefly re-call the site plan 2.1 engineer as to a revised compound of location, as well 22 as its professional planner, to address certain 23 supplemental visual analysis that were specifically 24 requested by the Board. And I'll get into that in a 25 little more detail, but that's the game plan for this

2 CHAIRMAN FLANAGAN: Okay. Thank you. And 3 whenever you're ready.

MR. SCHNEIDER: Thank you, Mr. Chairman. As I just indicated we are returning this evening to respond to what I'll summarize as three separate requests of the Board made at the prior public hearing.

In order, the Board asked the Applicant to assess the potential relocation of the compound. In response to that the Applicant considered the request of the Board and will address that through the testimony of Mr. Murawski.

In summary, as a preview of that matter, after now approximately five and a half years since the original bid, that's five and a half years, the Applicant is not prepared to proceed with a complete relocation of the compound at the property. That decision is in large measure based on all of the reasons that I articulated at the prior public hearing, not the least of which is the necessity to go through a public bidding process, the necessity to revise completely the site plan, the time, and cost associated with that.

Notwithstanding that, though, the Applicant did adhere to a request made by at least one, if not

Page 7

multiple Board members to consider whether anything could be done as to the compound in its present location, specifically shrinking the compound, possibly relocating the tower.

We have done that and an exhibit has been submitted in advance marked, I believe, as Exhibit A-34. That will be reviewed and presented this evening.

After that is completed, Mr. Chairman, we're going to re-call our Planner for two specific purposes. The Board asked the Applicant last time two things: One, was whether they can -- with respect to the possible design of the tower as a tree design, I think you, Mr. Chairman, may have asked whether there was any catalogues or specifications that we could submit, or in the alternative whether there was any photos that we can present of trees that we thought were appropriate.

I considered that and thought that photographs of other trees for the purposes of just showing the design of the tree was the more helpful presentation, and that has been again submitted in advance, ten days in advance, and we'll have our Planner review that.

In addition, the Board asked us whether we

Page 8

would consider presenting revised visual analysis at the 80-foot height that was offered as a condition of approval at the last hearing. We considered that and agreed to have our Planner prepare a visual analysis of a tree design based on the 80-foot height, that actually technically measures 86 feet to the top of the branching. And that likewise has been submitted in a series of photos.

So those are the objectives that we'd like to present to the Board this evening. I think they respond in large measure with what's within the appropriate purview of the Applicant to present to you and we would certainly hopefully and respectfully ask that you look upon them favorably.

Unless there's any housekeeping items, which I don't believe to be the case, I can proceed with my first witness, Mr. Chairman.

CHAIRMAN FLANAGAN: Please do. MR. SCHNEIDER: Mr. Murawski? Mr. Chairman, just one housekeeping item tonight. I note, and it is what it is. We only have six eligible Board members right now. And I think --CHAIRMAN FLANAGAN: Do you want to wait a

moment for Elizabeth? What time did Elizabeth --SECRETARY TAGLAIRINO: Elizabeth didn't

	Page 9		Page 10
1	say. Dan said he was close.	1	MR. MLENAK: That's correct.
2	MR. SCHNEIDER: I guess the question would	2	CHAIRMAN FLANAGAN: So what time
3	be, if we're not going to complete tonight	3	SECRETARY TAGLAIRINO: I'm getting that
4	CHAIRMAN FLANAGAN: Right. So if we're not	4	here.
5	going to complete	5	MR. MLENAK: We can take three minutes.
6	MR. SCHNEIDER: I don't mind proceeding.	6	CHAIRMAN FLANAGAN: Do you mind, Mr. Simon?
7	CHAIRMAN FLANAGAN: I don't know if	7	MR. SIMON: I would like a full compliment
8	we're if we can't complete I'd like to, bit I	8	of the Board before we proceed tonight, whether it's
9	don't know	9	tonight or another night.
10	MR. SCHNEIDER: What I would like to do,	10	CHAIRMAN FLANAGAN: I think you're in
11	because I don't know and you're all here early and I'd	11	agreement on that with Mr. Schneider.
12	rather avail myself of the opportunity to make some	12	MR. SIMON: Well, no. We have been through
13	progress. I'd like to proceed right now and then we'll	13	this for how many hearings? I believe that in
14	figure out what even if we complete everything and	14	deference to the public and all the Board members who
15	come back at one hopefully, famous last words, a final	15	sat through this I believe that it is appropriate for
16	hearing for a vote, because I don't know what time the	16	all the Board members to be eligible to be able to
17	Board member not the new Board member	17	vote.
18	CHAIRMAN FLANAGAN: Well, what did Donato	18	CHAIRMAN FLANAGAN: I agree, but as I
19	say? Because if there's any possibility we can vote	19	understand it, if Donato can be here in the next few
20	tonight I'd like to, and I think you deserve a vote.	20	minutes it's probably worth waiting because then we
21	And if we were to get through everything I guess	21	could have a vote, right? But if we begin right now
22	what if Donato were not here for the entire thing	22	and he shows up in two minutes and we finish somehow
23	that he couldn't vote?	23	then we can't vote tonight.
24	MR. SCHNEIDER: That's correct.	24	SECRETARY TAGLAIRINO: He's around the
25	CHAIRMAN FLANAGAN: Would that be right?	25	corner.
	Page 11		Page 12
1	Page 11 CHAIRMAN FLANAGAN: He's around the corner,	1	Page 12 vote, too.
1 2		1 2	-
	CHAIRMAN FLANAGAN: He's around the corner,		vote, too.
2	CHAIRMAN FLANAGAN: He's around the corner, so do you want to wait two minutes?	2	vote, too.  CHAIRMAN FLANAGAN: So fine, then. Are you
2	CHAIRMAN FLANAGAN: He's around the corner, so do you want to wait two minutes?  MR. SIMON: Sure.	2	vote, too.  CHAIRMAN FLANAGAN: So fine, then. Are you saying that we're not going to vote tonight?
2 3 4	CHAIRMAN FLANAGAN: He's around the corner, so do you want to wait two minutes?  MR. SIMON: Sure.  CHAIRMAN FLANAGAN: Because if we don't	2 3 4	vote, too.  CHAIRMAN FLANAGAN: So fine, then. Are you saying that we're not going to vote tonight?  MR. SIMON: Well, if you can wait. I don't
2 3 4 5	CHAIRMAN FLANAGAN: He's around the corner, so do you want to wait two minutes?  MR. SIMON: Sure.  CHAIRMAN FLANAGAN: Because if we don't wait then there can't be a vote tonight. And I guess	2 3 4 5	vote, too.  CHAIRMAN FLANAGAN: So fine, then. Are you saying that we're not going to vote tonight?  MR. SIMON: Well, if you can wait. I don't know where she is.
2 3 4 5	CHAIRMAN FLANAGAN: He's around the corner, so do you want to wait two minutes?  MR. SIMON: Sure.  CHAIRMAN FLANAGAN: Because if we don't wait then there can't be a vote tonight. Page 13 Page 14 MR. SCHNEIDER: Why don't we do this. 1 MR. SCHNEIDER: Lori, for ease of 2 Let's proceed. I mean, if I knew, but I don't want to 2 reference, it might be helpful to put up Exhibit A-34, 3 3 wait a half hour, 40 minutes out of fairness to you, which I've submitted. Mr. Simon, you have those, 4 4 and then -correct? 5 CHAIRMAN FLANAGAN: Yeah. Go ahead. 5 MR. SIMON: Yes. 6 MR. SCHNEIDER: -- and then we'll make a 6 (Exhibit A-34 is received and marked.) 7 7 SECRETARY TAGLAIRINO: Can everybody see decision at the end. 8 BOARD MEMBER ADDONIZIO: There's two cars 8 that? Do we want to zoom in on something particular? 9 9 that just pulled in. Also, you know what? Is there another --10 10 (Whereupon, Board Member Sovolos enters the oh, no, this is the one. THE WITNESS: Yes. That's a little 11 meeting room at 7:15 p.m.) 11 12 CHAIRMAN FLANAGAN: Okay. You have your 12 obscure. It might just be beneficial for everyone if 13 1.3 we went to the second sheet. full compliment. 14 14 SECRETARY TAGLAIRINO: For the record, Ms. SECRETARY TAGLAIRINO: I'm going to give 1.5 Sovolos is here at 7:15. 15 you the yellow pointer, yellow button, and I'll zoom in 16 CHAIRMAN FLANAGAN: All right. Mr. 16 on that. On the second sheet, you said? Schneider? THE WITNESS: Yes, please. 17 17 18 MR. SCHNEIDER: Thank you. I'd like to 18 BOARD MEMBER NEWLIN: There is no hard 19 re-call Mr. James Murawski. Counsel, he was previously 19 copies? 20 20 THE WITNESS: If you can zoom in a little 2.1 21 bit, if possible, just for clarity. Perfect. Thank MR. MLENAK: Mr. Murawski, you understand 22 you are still under oath? 22 vou. 23 MR. MURAWSKI: Yes, thank you. 23 SECRETARY TAGLAIRINO: Can everybody see 24 JAMES MURAWSKI, having been 24 that? 25 25 previously sworn, testifies as follows: MR. SCHNEIDER: May I proceed, Mr. Page 15 Page 16 Chairman? 1 1 proposed compound plan by reducing the overall size 2 2 CHAIRMAN FLANAGAN: Yes, please do. from 30-foot-wide-by-60-foot long or 1,800-square feet, 3 EXAMINATION BY MR. SCHNEIDER: 3 down to 17-foot-wide-by-60-foot long, or 1,050-square 4 4 Q. Mr. Murawski, you were tasked, as I feet. 5 5 understand it, with the responsibility to assess In addition, we have relocated the proposed 6 whether the compound could be modified to address 6 pole and equipment as depicted on the revised plan 7 certain suggestions made by the Board at the prior 7 sheet SP-1 and SP-2, which have been previously 8 8 public hearing; is that correct? submitted to the Board prior to this hearing, and SP-2 9 9 That's correct. being on display and magnified as shown. This reduces 10 Q. And to be clear, you were not tasked with 10 the overall area of disturbance by 750-square feet, and 11 any responsibility, nor -- you were not tasked with any 11 reduces the added impervious surface to the reduction 12 12 responsibility of assessing any other alternate and gravel area as well. 13 13 locations on the property; correct? In general, the proposed pole has been 14 14 A. That's correct. relocated in an easterly direction, thereby allowing us 15 Q. Okay. And we submitted in advance 15 to revise the proposed tree removal plan as depicted on 16 Exhibit-8 marked as proposed Exhibit A-34. That 16 Sheet SP-2. Originally, 12 trees were proposed to be 17 exhibit was either prepared by you or under your direct 17 removed, and now due to the revised compound layout 18 supervision; is that correct? 18 only seven trees are proposed to be removed. One of 19 A. That's correct. 19 our primary objectives was to save or not remove the 20 Q. And can you review, with hopefully me not 20 24-inch caliper Red Maple, which is designated as Tree 21 at least initially interrupting you, what is depicted 21 One on Sheet SP-2. This tree was measured by our 22 on Exhibit A-34, and specifically the second sheet of 22 surveyor as being 69 feet in overall height to the 23 23 highest branch. Exhibit A-34? 24 A. Sure. Thank you. So as Mr. Schneider has 24 The proposed relocated pole has resulted in 25 explained, we have taken this opportunity to revise the 25 revised setbacks, which are depicted on Sheet SP-1, but

# Page 17 I'll reiterate what they are. The revised setback from Lot 9.04, which is the lot to the south, which was previously 58.1 feet to the centerline of the pole, is now 66.3 feet, which is a minor increase of 8.2 feet. In addition, the setback to Lot 5, which is

the lot to the east, I'm sorry, it's the lot to the west, was increased from 93.6 feet to 119.5 feet, for an increase of 29.5 feet.

The proposed landscaping plan as shown on both SP-1 and SP-2 remains the same as previously presented in testimony. Access to the compound remains the same as well. I'm not sure if I have anything further to add.

Q. I said you'd be brief. Let me follow up with one or two questions. You went through the additional setbacks that are --

A. Revised.

O. -- revised both as to the O'Donnell and Conine property. Let me talk about the objectives that were sought to be achieved by doing this.

The first is, in summary you have been able to save five trees, including the Maple that was the subject of some significant input by the Board;

recommendation, to only build a compound initially as

to what is necessary to accommodate the Verizon

A. Correct.

Q. Two: The compound, this would, the lease area would remain the same. All we have done, if I'm understanding this correctly, is shrink the compound essentially only to now accommodate the proposed tower, as well as the equipment cabinetry of the Applicant; is that correct?

Page 20

A. That's correct. I just would add that there is a 10-by-20-foot area to the west of the proposed generator, which is available for a collocator if he chooses to locate there or he can expand the fence line.

Q. Okay. You anticipated my next question. So not withstanding the shrinkage of the compound, the compound has the ability to at least potentially have an additional collocator in that 10-by-20 space if someone does collocate on this tower relative to their ground equipment. And if there were, either that space did not meet their ground space objectives there is still the ability to essentially go back to the original compound design and essentially expand the compound 13 feet, if necessary, if there was in fact either a second or third collocator; correct?

That's correct.

Q. So essentially what we have done is respond to the Board's, at least inquiry, if not

1 batteries. It's very weak. I can walk up to that.

THE WITNESS: I'll try. So there's two possibilities for collocation, the 10-by-20 area that I alluded to that's within the fence line --

MR. MLENAK: If you can reach it, yes.

CHAIRMAN FLANAGAN: Dr. Eisenstein --SECRETARY TAGLAIRINO: Thank you, Dr. Eisenstein. You know what, if you don't need me I'll

actually get batteries for the microphone. You carry on.

THE WITNESS: Okay. So within the fenced-in area we have right here, we have potential area for equipment cabinets of a second carrier, if he chooses to locate this cabinetry there.

The other possibility is to increase the compound area a needed amount to accommodate this equipment cabinet. To me that would be his first alternate choice.

BOARD MEMBER ADDONIZIO: And the reason for that is?

THE WITNESS: Because there's no tree removal required there. And there's a fair amount of space between the pole and the fence line now. He has a clear path to get to the pole with his cabling, for example.

Page 19

installation; is that correct?

A. Yes.

Q. And the fencing relative to the same -- the fencing remains as originally proposed with no change in that regard; correct?

A. I believe we reduced the fencing down to 17-foot wide.

Q. Okay. But in terms of the height everything else is --

A. The fencing itself, the details of the fencing remains unchanged.

BOARD MEMBER NEWLIN: Rich, can you just repeat that with the pointer, what you talked about the expansion as you talked?

MR. SCHNEIDER: I think what Mr. Newlin is asking you to do is to show if the compound would be expanded where it would be.

CHAIRMAN FLANAGAN: Lori, can you just zoom

in so we can just see the shed and the compound? SECRETARY TAGLAIRINO: Hit the yellow button. One more, or even more. Can you see now?

BOARD MEMBER NEWLIN: Where's the pointer?

25 THE WITNESS: I think we need new Page 21

Page 22

BOARD MEMBER BOYAN: Would the expansion of the fence line trigger another application to the Board of Adjustment? Would that cause us to come back here or no? MR. SCHNEIDER: May I? CHAIRMAN FLANAGAN: Yes. It's a good question. I was going to ask the same thing. MR. SCHNEIDER: The answer would be legally no, because under, as Dr. Eisenstein and I and Counsel

MR. SCHNEIDER: The answer would be legall no, because under, as Dr. Eisenstein and I and Counsel have all discussed, under 64-09A you have the right to collocate and essentially are entitled to a mandatory approval subject to certain conditions. And we've talked about that at length as it relates to the tower. That includes, the right to include an exemption essentially from the approval process as it relates to ground equipment.

2.2

There are some more recent provisions of 64-09 in the FCC, which clarifies the ground equipment, but in this case if you extended the fence line by the mere 13 feet you would still be within the purview of the FCC and 64-09 so that it would be exempt from further review process by the Board.

CHAIRMAN FLANAGAN: Okay.
 MR. SCHNEIDER: Does that answer your
 question?

BOARD MEMBER BOYAN: It does. Does Counsel agree with that?

MR. MLENAK: That sounds correct from when I looked at it and did a memo for you last year. But I certainly defer to the knowledge of somebody who's been doing this for many applications to be confirming this. But good enough for me right now.

MR. SCHNEIDER: I have nothing further.

CHAIRMAN FLANAGAN: So by doing this you are not making it impossible for a collocator to be on that site if one were to show up.

MR. SCHNEIDER: Quite to the contrary. I think the ability to collocate in terms of ground equipment is maintained either from locating in the presently re-designed compound or expanding it, but at the same time you're avoiding potentially unnecessary disturbance and you may view it through your own prism, but you're avoiding bringing the compound 13 and a half feet closer to the adjoining property line and building it out for no reason.

There were three -- if I -- I'll be quasi-advocate for a moment. There were three advantages sought to be achieved, minimizing the compound and reducing the size of the compound. Bringing the tower, albeit not significantly but still

Page 23

Page 24

8 feet further away from the property line, and 30 feet away from the Conine property, and at the same time maintaining the ability to collocate or to use the compound without a new public bid process for collocators, either within the presently re-designed compound or maintaining the flexibility to expand the compound.

The other thing I would mention, which frankly you mentioned, Mr. Chairman, it doesn't impact at all the public bidding process at all by what we're doing, because the same lease area of 1,800-square feet is maintained. We're maintaining that lease area, we're just not building it out to full capacity.

And that -- what is being proposed, I would note, is not that unusual. My experience is one of two things happen. Either the compounds are generally built out to their full rights or authority right from the get-go to avoid re-doing and extending fence lines down the road, or they're built only what is necessary for the immediate approved applicant with the right of subsequent collocators to assume the responsibility of expanding the compound. So what you suggested is not that unique or inconsistent.

CHAIRMAN FLANAGAN: All right. Is that it? Any questions from the Board? Any other questions from

the Board?

BOARD MEMBER NEWLIN: I have a question. So when you talked about the two topics: One, is the location of the pole itself. And you have 13 feet on the other side. Why couldn't you push the pole even farther back?

CHAIRMAN FLANAGAN: Like toward the shed?

And can someone just put the pointer on the tower there so everybody can see where the tower's proposed?

BOARD MEMBER NEWLIN: And can you point out the 13 feet? That's what the drawing says; is that correct?

THE WITNESS: Right here is 13 feet.

That's correct. So if you look closely at the plan there's a dashed --

16 CHAIRMAN FLANAGAN: Lori, can you zoom in a 17 little bit more, Lori, right on the tower?

SECRETARY TAGLAIRINO: Sure.

19 THE WITNESS: What I'm referring to as a
20 dashed square is the anticipated foundation of the
21 tower. It was simply allowing for clearances for that
22 foundation.

BOARD MEMBER NEWLIN: Right, but you understand that this is -- now from 58 to 66 feet from a property line every foot matters for the setback

Page 25 Page 26 issue is one of the main issues for this application. 1 BOARD MEMBER NEWLIN: So you're saying if 1 2 2 Every foot matters. So I'm sure there's some it's a pole versus a --3 3 engineering aspects, I'm sure there's some safety THE WITNESS: So there's two -- I think, if 4 aspects as well, but why 13 feet? Why can't you lean 4 I may, correct me if I'm wrong, I think there's two 5 into that? 5 poles being considered: One, is a flagless flagpole, 6 THE WITNESS: This foundation here is shown 6 which would be approximately the same height, 80, 7 as a mat, as opposed to a caisson, a drilled shaft. 7 85 feet; and a tree pole 80 or 85 feet. So the mat 8 Because it's our understanding that there's a 8 foundation for the tree pole would be larger, because 9 9 relatively shallow layer of shale that we would hit if of the nature of the tree, would be larger than the mat 10 10 we would drill on a caisson. If this was a caisson foundation for a flagless flagpole. 11 then we can tuck that pole relatively close to the 11 BOARD MEMBER NEWLIN: So the flagless 12 12 shed. But since it's a mat we have to allow room for flagpole theoretically would cut into that 13 feet? 13 the mat and we have to be able to install it without 13 THE WITNESS: By a few feet, I would 14 14 undermining the footing for the shed structure. speculate, yes. 15 1.5 BOARD MEMBER NEWLIN: Potentially you could CHAIRMAN FLANAGAN: But even further, 16 change the foundation type? 16 though, if you find that you put a caisson instead of a 17 THE WITNESS: We didn't do a geotechnical 17 mat you could put it even closer to the shed? 18 soil boring here yet. Our understanding of the 18 THE WITNESS: Correct. 19 19 elevation of the shale is based on recent septic CHAIRMAN FLANAGAN: And you wouldn't know 2.0 20 designs in the neighborhood that our firm has that until you say only -- if this application were to 21 performed. Once a geotechnical -- once a pole is -- if 21 move forward you would then do a soil test? 22 this application were to move forward and we did a 22 THE WITNESS: Yes. We would do a soil 23 23 geotechnical and we had now a pole design then the boring, probably two borings, and come up with a 2.4 foundation would be designed. And we can at that point 24 foundation design criteria based on that exploration 25 fine tune that 13-foot dimension. 25 program. Page 27 Page 28 1 BOARD MEMBER NEWLIN: And the possibility 1 MR. SCHNEIDER: Absolutely. 2 is whether likely or not you can possibly pick up 2 BOARD MEMBER NEWLIN: Can I ask our 3 another 10 feet and get very close so there's no fall 3 engineer what --4 zone on the neighboring property? 4 THE WITNESS: On SP-2 tree designated as 5 THE WITNESS: Ten feet maximum. 5 Tree number Four has a 15-inch diameter caliper. 6 BOARD MEMBER NEWLIN: That's quite a bit. 6 BOARD MEMBER NEWLIN: That's the biggest? 7 And second question is on the trees that are being 7 THE WITNESS: Yes. 8 8 removed, can you just quickly say what type of trees BOARD MEMBER NEWLIN: And they're all 9 are they, and --9 Sassafras? 10 10 THE WITNESS: Primarily Sassafras. THE WITNESS: Tree number Four is a 11 BOARD MEMBER NEWLIN: So they're probably 11 Sassafras 12 12 BOARD MEMBER NEWLIN: I don't know if it's not very big then? 13 THE WITNESS: They are not. We do have the 13 fair to ask, but Paul, can you comment on the 14 calipers listed on A-2. 14 foundation aspects? Any advise to the Board on this 15 BOARD MEMBER NEWLIN: Can you just, without 15 one? 16 16 shortchanging it because we don't have any paper MR. FOX: Sure. I think there's two issues 17 copies, would you tell us how big this is? 17 at play here. First of all, the size of the foundation 18 THE WITNESS: I can. 18 matters on how much of a sale you have. Meaning, the 19 CHAIRMAN FLANAGAN: And while you're 19 tree is going to be a fairly significant sale, versus a 20 looking at that, let me just say because we're going to 20 pole is going to have much less wind cross-section and 21 forget this, I'm afraid, if we don't say it now, but if 21 require less foundation. So that's the first factor 22 we were to approve this that would make it a condition 22 between the two poles. And then the second is, as Mr. 23 of approval. From an engineering perspective, is it 23 Murawski discussed, the fact that they would have to, 24 possible to use a caisson, that they do use a caisson? 24 if they wanted to put it much closer to the building 25 25 And I would imagine you would consent to that? you'd have to have a shaft style --

	Page 29		Page 30
1	BOARD MEMBER NEWLIN: Foundation.	1	your two structures interlock, so that would be a bad
2	MR. FOX: foundation; whereas, trying to	2	idea.
3	put that in the rock is quite difficult.	3	BOARD MEMBER MASELLI: How would you
4	BOARD MEMBER NEWLIN: And would the town	4	excavate for a caisson in your opinion? Do you know
5	have any particular concern about having it closer?	5	how that's done?
6	MR. FOX: You know, the foundation on this	6	THE WITNESS: Oh, sure. I've seen it done
7	is just a pole barn. So I would say as long as we kept	7	many times.
8	2- to 3-feet away from the post that would be fine?	8	BOARD MEMBER MASELLI: How is it done?
9	BOARD MEMBER NEWLIN: And that shed is not	9	THE WITNESS: It's a drill.
10	historic?	10	BOARD MEMBER MASELLI: So when you drill a
11	MR. FOX: It is not.	11	water well you go through the layers of shale and
12	BOARD MEMBER NEWLIN: Just making sure.	12	basalt and all of that
13	CHAIRMAN FLANAGAN: And Paul, let me ask.	13	SECRETARY TAGLAIRINO: Dan, can you please
14	If it's a pole barn there is no foundation. Why could	14	put your microphone on? Thank you.
15	they not just tuck part of the mat into the shed?	15	BOARD MEMBER MASELLI: So I don't
16	MR. FOX: So a pole barn is primarily	16	understand how the shale would be a problem when you're
17	supported by poles and those usually are about 36 to	17	drilling through something like shale, which is
18	48 inches into the ground. I'm sure there's one at the	18	relatively soft compared to basalt.
19	corner adjacent to where that	19	THE WITNESS: The shale is not just a
20	CHAIRMAN FLANAGAN: So you think the mat	20	layer, it's shale all the way down.
21	would need to be where one of the poles is?	21	BOARD MEMBER MASELLI: Right. Well you
22	MR. FOX: Correct.	22	drill wells, water wells that go 500, 600 feet
23	CHAIRMAN FLANAGAN: Okay. And you couldn't	23	THE WITNESS: Well, they're much smaller in
24	pour your mat around the pole?	24	diameter. They have drill bits. So we have a drill
25	MR. FOX: No. You wouldn't want to have	25	bit that's designed for earth and it's 5 feet in
	D 21		D 20
1	Page 31		Page 32
1	diameter, and it's not designed to drill through rocks.	1	the place. Is it are you saying that they just
2	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different	2	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible
2	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?	2	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?
2 3 4	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.	2 3 4	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that
2 3 4 5	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two	2 3 4 5	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into
2 3 4 5	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?	2 3 4 5 6	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.
2 3 4 5 6 7	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the	2 3 4 5 6 7	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the
2 3 4 5 6 7 8	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.	2 3 4 5 6 7 8	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for
2 3 4 5 6 7 8	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the	2 3 4 5 6 7 8	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh,
2 3 4 5 6 7 8 9	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.	2 3 4 5 6 7 8 9	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's
2 3 4 5 6 7 8 9 10	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?	2 3 4 5 6 7 8 9 10	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?
2 3 4 5 6 7 8 9 10 11	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole	2 3 4 5 6 7 8 9 10 11	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that
2 3 4 5 6 7 8 9 10 11 12 13	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.	2 3 4 5 6 7 8 9 10 11 12 13	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The
2 3 4 5 6 7 8 9 10 11 12 13 14	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle	2 3 4 5 6 7 8 9 10 11 12 13 14	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to
2 3 4 5 6 7 8 9 10 11 12 13	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?	2 3 4 5 6 7 8 9 10 11 12 13	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.
2 3 4 5 6 7 8 9 10 11 12 13 14	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle	2 3 4 5 6 7 8 9 10 11 12 13 14 15	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.  I can say that this pole, this caisson
2 3 4 5 6 7 8 9 10 11 12 13 14 15	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?  THE WITNESS: It would be the pier.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?  THE WITNESS: It would be the pier.  CHAIRMAN FLANAGAN: Well, so it's a pier, but is it below grade or is it	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.  I can say that this pole, this caisson would need to be on the order of 30-feet deep to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?  THE WITNESS: It would be the pier.  CHAIRMAN FLANAGAN: Well, so it's a pier,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.  I can say that this pole, this caisson would need to be on the order of 30-feet deep to support the pole.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?  THE WITNESS: It would be the pier.  CHAIRMAN FLANAGAN: Well, so it's a pier, but is it below grade or is it  THE WITNESS: It sits on top of the mat and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.  I can say that this pole, this caisson would need to be on the order of 30-feet deep to support the pole.  CHAIRMAN FLANAGAN: Okay. I mean, but I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?  THE WITNESS: It would be the pier.  CHAIRMAN FLANAGAN: Well, so it's a pier, but is it below grade or is it  THE WITNESS: It sits on top of the mat and goes above grade. It's about let's just say it's 3-	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.  I can say that this pole, this caisson would need to be on the order of 30-feet deep to support the pole.  CHAIRMAN FLANAGAN: Okay. I mean, but I would imagine those overpasses have pretty substantial
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?  THE WITNESS: It would be the pier.  CHAIRMAN FLANAGAN: Well, so it's a pier, but is it below grade or is it  THE WITNESS: It sits on top of the mat and goes above grade. It's about let's just say it's 3-to 4-feet in height, and the diameter is designed to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.  I can say that this pole, this caisson would need to be on the order of 30-feet deep to support the pole.  CHAIRMAN FLANAGAN: Okay. I mean, but I would imagine those overpasses have pretty substantial caissons as well, right? They weigh a lot more than
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?  THE WITNESS: It would be the pier.  CHAIRMAN FLANAGAN: Well, so it's a pier, but is it below grade or is it  THE WITNESS: It sits on top of the mat and goes above grade. It's about let's just say it's 3- to 4-feet in height, and the diameter is designed to accommodate the anchor bolt arrangement of the pole and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.  I can say that this pole, this caisson would need to be on the order of 30-feet deep to support the pole.  CHAIRMAN FLANAGAN: Okay. I mean, but I would imagine those overpasses have pretty substantial caissons as well, right? They weigh a lot more than the pole?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	diameter, and it's not designed to drill through rocks.  BOARD MEMBER MASELLI: It's a different type of bit?  THE WITNESS: Completely different, yes.  BOARD MEMBER MASELLI: What are the two circles at the base of the tower?  THE WITNESS: One is the bottom of the pole, the other one was the presumed no, I'm sorry.  One is the pole, the other one is the pier for the pole.  BOARD MEMBER NEWLIN: The what, the pier?  THE WITNESS: The pier that brings the pole out of the ground.  BOARD MEMBER MASELLI: So the outer circle is subterranean?  THE WITNESS: It would be the pier.  CHAIRMAN FLANAGAN: Well, so it's a pier, but is it below grade or is it  THE WITNESS: It sits on top of the mat and goes above grade. It's about let's just say it's 3- to 4-feet in height, and the diameter is designed to accommodate the anchor bolt arrangement of the pole and it's doweled into the mat.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the place. Is it are you saying that they just don't drill caissons through shale and it's impossible to do?  THE WITNESS: So I can't answer that accurately until we do an exploration and we go into the shale to see how soft it is with the drill.  CHAIRMAN FLANAGAN: I drive down the highway and I see them drilling caissons for piers for overpasses, et cetera. I can't imagine they say, oh, we can't put an overpass here after all because there's rock. There must be a way to do it, right?  THE WITNESS: So the speculation is that they're hitting shale and they may not be. The speculation is also, the depth of their caisson has to penetrate the shale layer and we don't know that.  I can say that this pole, this caisson would need to be on the order of 30-feet deep to support the pole.  CHAIRMAN FLANAGAN: Okay. I mean, but I would imagine those overpasses have pretty substantial caissons as well, right? They weigh a lot more than the pole?  THE WITNESS: I couldn't tell you what they

Page 33 Page 34 but I think it's common sense if an overpass weighs 1 BOARD MEMBER NEWLIN: The question is do 1 2 2 more than the pole and they drill caissons to support Board members think that's strong enough? 3 3 this then when they want to put one someplace they MR. SCHNEIDER: I'm sorry? 4 4 BOARD MEMBER NEWLIN: The question is going don't say, eh, can't do it here because there's rock, 5 right? 5 to be if the Board members think that good-faith 6 THE WITNESS: Well, if there's rock that's 6 attempt is going to be good enough. 7 7 great. You anchor it to the rock. MR. SCHNEIDER: I think that's something CHAIRMAN FLANAGAN: Or if it's shale? 8 8 that, honestly after what we have been through, that 9 THE WITNESS: I don't know if we can anchor 9 shouldn't be in dispute. And ultimately you have Mr. 10 it to shale. 10 Fox to review all the details of that. 11 MR. SCHNEIDER: Mr. Chairman, I'll talk out 11 CHAIRMAN FLANAGAN: Yeah. I think 12 of turn, but you made a suggestion that the Applicant, 12 that would be one of the things, right, because I'd 13 you were about to ask me, we have no objection if --13 like it to include Mr. Fox's review. And if there's 14 the Applicant has no issue doing everything within 14 any difference of opinion as to whether it's feasible 15 appropriate structural code provisions and review of 15 or not, right, then --16 Mr. Fox to maximize, to bring the towers as close as 16 MR. FOX: Absolutely. 17 possible to the recycling shed in accordance with 17 CHAIRMAN FLANAGAN: -- then it's back to 18 geotech and structural safety issues. I think that's 18 the Board. So if Paul looks at it and says, you know, 19 what we're all doing and I don't know that we're going 19 I think you could, then --20 to resolve the specifics of how far until that geotech 20 MR. SCHNEIDER: So the standard condition 21 is completed. But you have the representation and the 21 is what I represented and in the event there's any 22 stipulated condition of the Applicant that to the 22 dispute as to the Applicant's ability to bring the 23 extent that it can minimize the 13-foot setback to the 23 tower closer based on geotech and structural conditions 24 recycling shed and build it structurally sound based on 24 in the event of any dispute the Board retains 25 geotech we are amenable to doing that. 25 jurisdiction. Page 35 Page 36 1 CHAIRMAN FLANAGAN: Okay. No? You don't 1 MR. FOX: It depends again on the actual 2 like that? 2 soil boring conditions that they find when they test 3 BOARD MEMBER NEWLIN: I like it. I said 3 out there, but certainly to the extent that we can move 4 4 it closer to the recycling shed without endangering the no. 5 MR. FOX: Just to be clear, when you see a 5 recycling shed foundation we can do that. 6 large drilling rig drilling supports for a foundation 6 CHAIRMAN FLANAGAN: Have you done any work 7 the purpose of that is typically to go through soft 7 at the DPW site in terms of septics or anything else to 8 8 soils and define competent soil that has good bearing have an idea not in that particular spot but just on 9 pressure or rock. They're rarely ever actually 9 their property as to what the soil conditions are like? 10 10 MR. FOX: Yes. drilling through rock. The idea is to get to the rock 11 so they can have the foundation sitting on something 11 CHAIRMAN FLANAGAN: What did you find when 12 12 decent. you did that work? 13 1.3 MR. FOX: Generally at a depth of anywhere So I would agree with Mr. Murawski that 14 having a large diameter bore through bedrock is not a 14 between 5 and 7 feet we encountered shale. 15 15 CHAIRMAN FLANAGAN: Okay. So with that reasonable possibility. 16 16 BOARD MEMBER NEWLIN: So are you saying said your expectation would be they wouldn't be able to 17 that, of course this is here now without real facts, 17 do a caisson? 18 but you're saying it's kind of unlikely that this is 18 MR. FOX: That's correct. 19 19 feasible? CHAIRMAN FLANAGAN: Alf, any more 20 20 THE WITNESS: Yes. questions? 21 MR. FOX: Yes. I would find it to be 2.1 BOARD MEMBER NEWLIN: No. 22 22 unlikely that you could put the size bore that you need CHAIRMAN FLANAGAN: Anybody else? 23 to put into the rock to a depth of 30 feet. 23 BOARD MEMBER SYMONDS: Can I ask one just 24 BOARD MEMBER NEWLIN: So it's unlikely that 24 for clarification? There is some variability that the 25 25 they would be able to relocate this tower? 13 feet may get smaller, but there's no variability,

Page 37 Page 38 1 BOARD MEMBER NEWLIN: The pad is still 1 you know, you're not going to find anything that would 2 make it move out. It wouldn't become 15 feet or 2 going to be less. 3 16 feet or something like that, would it? 3 CHAIRMAN FLANAGAN: You could move it a 4 THE WITNESS: I'm not anticipating that, 4 couple, right? I think the best answer would be move 5 correct. And again, it also depends on what pole we'd 5 the caisson, but you'd need to be -- but you have 6 move forward if we move forward with --6 shale. So it sounds like that's not going to happen. 7 BOARD MEMBER SYMONDS: But the 13 foot is 7 But if it can, you will? 8 based on a tree pole. So in other words, like say, if 8 MR. SCHNEIDER: Absolutely. The Applicant 9 we said it went to be a straight flagless pole then 9 would have no reason not to. 10 that would -- the foundation would be less extensive, 10 CHAIRMAN FLANAGAN: Yes. Sure. Okay. Who 11 and so that would lead us to, you know, shrink it or 2 11 else, anybody? All right. Mr. Simon, do you have any 12 feet. That 13 feet might go down? 12 questions you'd like to ask? 13 THE WITNESS: Correct. 13 MR. SIMON: I do. 14 BOARD MEMBER SYMONDS: Okay. Thank you. 14 SECRETARY TAGLAIRINO: Rob, if you would 1.5 CHAIRMAN FLANAGAN: So 30-feet deep for a 15 like to sit --16 tree caisson. How deep would you have to go for a 16 MR. SIMON: I would like to sit somewhere. flagless flagpole caisson? 17 17 SECRETARY TAGLAIRINO: Yes. There's a 18 THE WITNESS: Not sure. I'm just going to 18 microphone over there if you would like to set up. 19 speculate at 20. 19 CHAIRMAN FLANAGAN: Next to Dr. Eisenstein. 2.0 CHAIRMAN FLANAGAN: Less, I guess. But Would you like us to move the microphone to you? 20 2.1 nonetheless we'd probably have shale at 5 feet. Well, MR. SIMON: No. Thank you. Sorry. 21 22 you don't have to testify. So either way, it's not --22 CHAIRMAN FLANAGAN: Don't be sorry. 23 all right. Who else? 23 EXAMINATION BY MR. SIMON: 24 MR. MLENAK: Well, a flagless flagpole is 24 Q. Mr. Murawski, good evening. 2.5 still movement. 25 A. Hi. Page 39 Page 40 1 Q. Just a bunch of questions. First of all, 1 Q. That surveyor's not present this evening; 2 2 Mr. Schneider, even before you began to testify, you correct? 3 were present when he talked about the fact that the 3 A. Correct. 4 4 compound could not be moved, and you talked about the Q. Is that 69-inch measurement referenced in 5 5 public bidding process. But he also talked about time any plan or documentation? 6 and the cost to revise the site plan. 6 MR. SCHNEIDER: Sixty-nine inch? 7 How many site plan revisions have you done 7 Q. I'm sorry. Sixty-nine foot. 8 8 since you were involved with this project, sir? A. It is not. 9 9 If you looked at the revisions sheet, not So somebody told you that? Q. 10 just for your current submission, but also the prior 10 Correct. 11 submission and even prior to that, the work that you've 11 And you don't now how that person went 12 done in creating the bid package for this project? 12 about measuring, correct? 13 A. Maybe three. 13 Well --A. 14 14 Q. Three? Q. Were you there? 15 A. Maybe three. 15 A. I was not there. 16 Q. And with regard to -- you talked about 16 Q. Do you know if that person -- that surveyor 17 reducing the area of disturbance by 750-square feet. 17 performed the height measurement of any other tree in 18 18 the vicinity of this cell tower? What's the -- in terms of percentages what's the 19 percentage? How does that relate to the percentage of 19 A. He did not. 20 20 Q. Just so he -- so he just measured the one site in total? 21 A. I don't have that number. 21 24-inch DBH Red Maple; correct? 22 22 A. Yes. Q. And you mentioned about a measurement of 69 23 feet to the highest branch of a 24-inch diameter Red 23 Q. And is there a reason why the lease area 2.4 Maple by the surveyor; correct? 24 needs to include the 24-inch Red Maple if per you using 25 A. Correct. 25 Dr. Eisenstein's pointer that if a second carrier were

	Page 41		Page 42
1	to collocate here that the fence would be extended but	1	he's aware whether Arborist had performed any
2	not within the area of the 24-inch Red Maple?	2	assessment of the 24-inch
3	A. That's correct. The 24-inch Red Maple's	3	BOARD MEMBER NEWLIN: Assessment?
4	right here. I'm sorry, right there. And if I don't	4	MR. SIMON: Assessment. I'm sorry, I
5	know who would want to collocate here, and I don't know	5	wasn't clear Red Maple.
6	what their area requirements would be, but within the	6	Q. So as it stands currently there's no
7	fence there is a 10-by-20-foot vacant space that the	7	guarantee based on your testimony and the interplay
8	tree is. And I simply suggest or am suggesting that if	8	with the Board and talking about the shale that's
9	he goes out let's just say 10 by 20 there would be his	9	encountered at the site, there's no guarantee that the
10	path of least resistance in terms of site work.	10	pole will be moved from its currently proposed
11	Q. Right. But if the lease area were to	11	location; correct?
12	include, as it currently does, the 24-inch Red Maple	12	A. I would say that's correct.
13	area, a second carrier per Mr. Schneider's comment	13	Q. And what's the diameter of the faux tree as
14	about 64 or nine could technically collocate and put	14	you're proposing it?
15	their equipment in that area which would require the	15	A. It's not designed yet, so my response is
16	24-inch Red Maple to be removed; correct?	16	speculative. Based on past experience it would be at
17	A. Correct.	17	least 48 inches in diameter at the base.
18	Q. And with regard to the 24-inch Red Maple	18	Q. Why is it not designed yet?
19	are you aware whether anyone from your office, an	19	A. It hasn't been ordered by Verizon.
20	Arborist has performed an assessment of that tree?	20	UNIDENTIFIED PUBLIC VOICE: I'm having
21	A. We have not.	21	trouble hearing him. Can you please get closer to the
22	Q. You have not?	22	mic?
23	BOARD MEMBER NEWLIN: I'm sorry. What did	23	CHAIRMAN FLANAGAN: Mr. Murawski, could you
24	you say? What was the question?	24	just pull the microphone could you pull the
25	MR. SIMON: I asked whether an Arborist,	25	microphone
	Daga 42		Dago 44
1	Page 43	1	Page 44
1	THE WITNESS: Thank you. BY MR. SIMON:	1 2	as a condition of approval, which is one of the recommended conditions of approval, which I would note
2	Q. I apologize. It hasn't been what by	3	is one of the steps of the Sica Balancing Test.
4	Verizon?	4	MR. SIMON: So the Applicant is not
5	A. It hasn't been ordered. The size of the	5	amending its so this application right now is for a
6	tree hasn't been ordered by Verizon.	6	140-foot tower?
7	Q. So it's 48 inches at the base?	7	MR. SCHNEIDER: 120 foot.
8	A. I'm speculating that it's 48.	8	MR. SIMON: 120-foot tower is the current
9	Q. You're just speculating. And do you know	9	application?
10	what the diameter is inclusive of all the branches?	10	MR. SCHNEIDER: That's correct. But I've
11	A. I do not.	11	been clear, Mr. Simon, I think you know, that we're
12	Q. Either at any point?	12	willing to accept 80 feet as a condition of approval
13	A. Correct.	13	from this Board.
14	Q. And is this is it your understanding	14	BY MR. SIMON:
15	that this application is being amended to propose this	15	Q. Mr. Murawski, have you prepared any site
16	86-foot fake tree? Is this part of this application?	16	plan that depicts the elevation of an 86-foot fake
17	MR. SCHNEIDER: Objection. That's not	17	tree, an 80-foot flagless flagpole?
18	within the purview of Mr. Murawski.	18	A. You said site plan?
19	MR. SIMON: Well, Mr. Schneider, can you	19	Q. Correct.
20	answer the question? Because I think it's very	20	A. It doesn't affect the site plan.
21	relevant to the proceedings.	21	Q. When you say "It doesn't affect the site
22	MR. SCHNEIDER: I'd be more than happy to.	22	plan," my recollection is that the site plan that you
23	The Applicant is prepared to accept as a	23	last presented dated March 4th, of 2019, had a whole
24	condition of approval either an 80-foot flagpole or an	24	bunch of sheets. And those show sheets included on
25			
23	80-foot tree, which extends the branching up to 86 feet	25	SP-2 an elevation that showed the the height and

Page 45 Page 46 1 collocators and cable bridges and technical space and 1 top of tree pole." So is that an error? 2 equipment cabinets, and on C-1 a whole bunch of 2 A. That was -- that's reflective of the 3 equipment details, including power cabinets, future 3 original bulk chart that was submitted originally, and 4 4 cabinets, things of that like. has not been amended as -- it's my understanding that 5 5 the height of the pole is an item to be discussed. Are any of those sheets being amended for 6 purposes of the application at this point? 6 Q. So what is on your A-34 is not correct; 7 7 A. My apologies. So when you said site plan right? 8 8 and I heard site plan I was looking at "the plan." The I would agree with that, yes. 9 elevation --9 Q. And is there a reason why you didn't -- and 10 10 Q. I don't know what "the plan" is. actually go back -- let me go back for a second. 11 A. The elevation was not amended to reflect an 11 Is there a reason why there's a new SP-1 12 12 86-foot tree pole or an 80-foot flagless flagpole. and not just another complete plan revision? 13 Q. So you have not amended your site plan in 13 A. We only prepared these as exhibits for 14 any way to reflect either of the current proposals, as 14 presentation purposes. 15 Mr. Schneider said, as a condition of approval? 15 Q. And is there a reason why you didn't 16 A. Correct. 16 revise, you know, for example, your general note five 17 Q. And so when your zoning table, getting back 17 on T-1 of your March 4th, 2019, site plan that talks 18 18 to -- I'm sorry, Rich, is it A -about collocators and design, right, is that being 19 19 MR. SCHNEIDER: 34. amended, too, that we haven't seen yet? 20 BY MR. SIMON: 20 A. It will be if this project -- if this 21 Q. Thirty-four. Thank you. Getting back to 21 application moves forward and there are conditions of 22 A-34 for a second. I apologize for jumping around a 22 approval. We amend the entire site plan application to 23 little bit. You have a zoning table here. And your 23 reflect those conditions. 24 zoning table under wireless telecommunications 24 Q. And that would be presumably after the 25 equipment and facilities it says "proposed 146 feet to 25 Board votes on your application? Page 47 Page 48 1 Q. And so just for purposes of comparison the 1 A. Correct. tower in the lease agreement from 2017 is 59 and a half Q. And you also, and I think I mentioned this 2 2 3 earlier, your firm prepared the plans that were 3 feet from Lot 9.04, the O'Donnell property at 28 4 submitted for the public bid for this project; correct? 4 Millbrook; correct? 5 5 A. Yes. A. Correct. Q. And it's 120.9 feet from Lot 55, which is 6 Q. And your firm also prepared the plans that 6 7 were included in the lease agreement between Verizon 7 the Conine property on 7 Lees Hill Road; correct? 8 and Harding Township; correct? 8 9 9 A. Correct. Q. So we go from 59 and a half and 120.9, and 10 Q. And if you recall the tower in the lease 10 then most recently before tonight as of March 4th of agreement from 2017 is 59 and a half feet from Lot 2019 it was 58.1 feet from Lot 9.04, and 93.6 feet from 11 11 12 9.04, the O'Donnell property; do you recall that at 28 12 Lot 55; correct? 13 Millbrook? 13 Correct. 14 14 A. No. Q. And then based on A-34 presented tonight 15 Q. You don't recall that? 15 you're now -- it's now being proposed at 66.3 feet from 16 A. I would have to go back. 16 Lot 9.04; correct? 17 Q. Do you want me to show you? Because I have 17 Correct. 18 18 Q. And that's a difference of 8 feet from the it here. A. Sure. 19 19 2019 proposal, and 7 feet from the 2017 proposal; Q. So I'm showing Mr. Schneider, the witness, 20 right? 20 21 A-2, which is the lease agreement. And why don't you 21 A. Correct. 22 go toward the back of that and it has all your plans Q. And with regard to Lot 55 it's 119 and a 22 23 23 half -- 119, I apologize, .5 feet away from Lot 55 there. 24 Do you see that, Mr. Murawski? 24 currently; right? 25 A. Yes. 25 A. Yes.

	Page 49		Page 50
1	Q. So that's a difference of 25 feet from the	1	A. Yes.
2	2019 proposal, but actually closer to the Conine	2	Q. And do you know whether A-34 accurately
3	property than what was proposed in 2017; correct?	3	depicts the current location of all buildings and
4	A. Correct.	4	structures on the DPW site?
5	Q. And you also designed, of course, a tower	5	A. Well, we haven't updated our survey since
6	elevation tree pole as part of your lease agreement	6	it was originally done, so the answer would be, no, I
7	from 2017 that would accommodate up to four collocators	7	don't know.
8	in the same March 4, 2019, plan; correct?	8	CHAIRMAN FLANAGAN: Mr. Murawski, I'm
9	A. Correct.	9	sorry. Can you speak more closely to the microphone?
10	Q. And you didn't submit an elevation at	10	THE WITNESS: My apologies.
11	86 feet for the fake tree, or 80 feet for the flagless	11	CHAIRMAN FLANAGAN: Just keep it right
12	flagpole; correct?	12	there.
13	A. Correct.	13	BY MR. SIMON:
14	Q. So you have not shown, at least to the	14	Q. My recollection is, and you'll correct me
15	Board via an elevation or otherwise, any collocation	15	I'm sure, is that the survey was done back in '20 I
16	possibilities and at what heights; correct?	16	have it in my bag or one of my bags, but it was done in
17	A. Correct.	17	'20 maybe '16 thereabouts, right? So, do you want to
18	Q. And when was the last time you went out to	18	check?
19 20	the property?  A. Before COVID, 2020.	19 20	A. We usually annotate the survey date.     Q. Did you do that here?
21	A. Before COVID. 2020. Q. 2020?	21	Q. Did you do that here? A. It was dated July 22nd, 2017.
22	A. I don't know. Hang on. I went out to the	22	Q. July 22nd, 2017. Okay. So we're almost
23	property in preparation for testimony in followup to	23	five years later, four and a half years later. So
24	your questions. So that's last time I was there.	24	since July of 2017 you have no idea whether any of the
25	Q. Over two years ago?	25	buildings or structures have been moved or relocated at
	Page 51		Page 52
1	the DPW site?	1	Q. And you reference here relocation of a
2	A. That would be a fair statement.	2	trailer, right, in the vicinity of the compound. Do
3	Q. And are you aware that since July 22nd of	3	you know where that trailer's being relocated to?
4	2017 that a new building was erected with offices,	4	A. No.
5	sleeping accommodations, bathroom, locker room; are you	5	Q. Of the trees that are identified as
6	aware of that?	6	remaining, and you went through that in response to the
7	A. No.	7	Board's questions, are you aware whether any of them
8	Q. Do you know where that's located, sir?	8	are dead, diseased or dying?
9	A. No.	9	A. I am not.
10	Q. No one ever told you?  A. Correct.	10	Q. You're not. Do you recall creating an
11 12		11 12	exhibit under drawing SP-2 where there was identified tree species to be removed?
13	Q. And with regard to the existing trees and woods area that is shown on A-34, since you haven't	13	A. Your question is am I aware?
14	been out there since 2020, you're not aware of the	14	Q. Yes.
15	condition of any of the existing trees or woods;	15	A. Yes.
16	correct?	16	Q. You are. You recall that? Do you recall
17	A. If they have since subsequently been	17	when you created that exhibit?
18	altered in some way shape or form? I	18	A. I do.
19	Q. Right. We don't know if a tree fell	19	Q. When was that, sir?
20	because of a storm or anything like that; correct?	20	A. Again, around approximately the same time
21	A. Correct.	21	when I was in preparation for my follow-up testimony in
22	Q. And do you know whether any of the trees or	22	response to a request made by you.
23	even the plantings that you show on A-34 are regularly	23	Q. And do you recall that on that Sheet SP-2
24	maintained by the Township or by the DPW?	24	that you didn't re-date but it was dated, still dated
25	A. I do not know.	25	March 4th, 2019, under tree species to be removed you
_			

Page 53 Page 54 identified some trees that were dead or dying; do you 1 1 MR. SCHNEIDER: Mr. Murawski, Mr. Simon is 2 recall that, sir? 2 asking you a series of questions. I don't know if you 3 3 A. I recall several trees being dead or dying, have the exhibit. 4 THE WITNESS: I don't. Correct. but I don't remember what happened to that log. 4 5 Q. And did you yourself determine whether they 5 BY MR. SIMON: 6 were dead, diseased or dying? 6 Q. So I'll state it again, because Mr. 7 7 A. No. Schneider informed me that you may not have had the 8 8 exhibit when I asked you the question. So on the March Q. You had someone go out there? 9 A. Yes. 9 4th, 2019, Sheet SP-2, trees two, three, and 11 are 10 10 identified as dead trees; correct? Q. But you don't remember who or what or when? 11 A. Oh, I do. I was there at the same time. 11 A. Correct. 12 Q. That was a couple of years ago? 12 Q. And that was from over two years ago; 13 A. Same time that I was in preparation for 13 right? 14 your follow-up questions. 14 A. Yes. 15 Q. And based on that exhibit, that Sheet SP-2, 1.5 That just leaves trees one and 12 that are 16 trees one, two, three, eleven -- I'm sorry, under the 16 not dead trees that are to remain based on this current 17 current proposal, trees one, two, three, 11 and 12 are 17 proposal; correct? 18 to remain; is that correct? 18 A. Correct. 19 19 Correct. Q. And if the equipment compound is extended 20 Q. And all those are deciduous trees that will 20 as testified to earlier those trees would have to be lose their trees in the Winter; correct? 21 21 removed as well, potentially; correct? 22 A. Correct. 22 A. Potentially, too. Correct. 23 Q. And on the March 4th, 2019, Sheet SP-2 23 Q. Now, I see you've identified in the area 24 trees two, three, and 11 from over two years ago are 24 trees that are -- well, let me ask it. Is it accurate 25 25 identified as dead trees; correct? to state that you identified on your A-34 trees in the Page 55 Page 56 1 vicinity of the cell tower that are 6 inches in DBH, 1 back and identify? 2 diameter-breast height or greater; is that correct or 2 BOARD MEMBER NEWLIN: I don't want to slow 3 3 you guys down, but it is feasible to actually point to 4 A. We have identified the breast. I don't 4 the trees that you're talking about being removed. 5 know what our criteria that we used in identifying 5 MR. SIMON: Sure. 6 those breasts. 6 THE WITNESS: So on SP-2 we have identified 7 Q. You don't know? 7 with a black -- we have identified the trees to be 8 8 removed by using a black "X" over the tree. And A. Right. 9 Q. So you don't know how far off the ground 9 adjacent to the tree we have a call-out, calling out 10 10 the caliper and simply giving that tree a number. 11 BOARD MEMBER NEWLIN: So Rob, I'm not sure 11 BOARD MEMBER NEWLIN: I'm sorry. You're 12 if this is more for the record or for us, but would it 12 referring to if there's a collocator, weren't you? 13 be possible? THE WITNESS: No. Right now I'm just --13 14 MR. SIMON: It's all for you. 14 BOARD MEMBER NEWLIN: Mr. Simon, your 15 BOARD MEMBER NEWLIN: That's never happened 15 question before was if there was a certain collocator 16 so. Why don't you use the pointer or ask the engineer 16 certain trees would be removed. 17 to use the pointer as you're referring to certain trees 17 MR. SIMON: No. There's two points. Point 18 that are going to be removed so we can follow on the 18 number one, is that the Applicant is telling the Board plan. 19 19 that due to its shrinking of the equipment compound 20 MR. SIMON: Sure. I have no problem doing 20 that they're saving trees. What I'm saying to you, and 2.1 21 that. I believe that they identify five trees that they've 2.2 THE WITNESS: To answer the question you 22 saved. However, what I just pointed out I hope through 23 just asked, it looks like the minimum breast diameter 23 cross-examination is that of those five trees that they 24 is 6 inches that we have identified on the plan. 24 are saving by their reduction of the compound that 25 MR. SIMON: So would you like him to go 25 three of them are already dead. And the fact that

1			Page 58
	they're already dead has been acknowledged by the	1	A. I believe that's tree 12 right here.
2	engineer for over two years now. So that's point	2	(Indicating on Exhibit A-34.)
3	number one.	3	Q. And show for the Board's edification where
4	Point number two, is that of the trees that	4	the leased area is extended to since it's a little
5	are to remain, which is one and 12, that if the	5	dash.
6	compound or the leased area is going to be used by	6	A. This dashed line here is the overall
7	another carrier that there's nothing to prevent trees	7	that's the overall lease area.
8	one and 12, the only two allegedly healthy trees,	8	Q. Okay. Thank you for that clarification.
9	although we don't have any testimony to that extent, we	9	So then I asked you about the fact that
10	have no guarantee that those trees will not be	10	what you're showing here are only trees that have a
11	automatically removed per the state and Federal rights	11	diameter of unknown measurement location of a minimum
12	of collocation.	12	of 6 inches; correct?
13	BOARD MEMBER NEWLIN: And tree number one	13	A. Correct.
14	is the 24-inch Red Maple?	14	Q. And we don't know the heights of any of
15	MR. SIMON: That's correct.	15	these trees other than what you say is what your
16	BY MR. SIMON:	16	surveyor told you that's not in the record; correct?
17	Q. Right, Mr. Murawski?	17	A. Correct.
18	A. Well, I'm just going to point out that tree	18	Q. And how many trees that are less than 6
19	12 is outside of the overall lease area.	19	inches in diameter-breast height are being removed by
20	Q. Oh, tree 12 is already outside the leased	20	virtue of the disturbance to create this compound and
21	area?	21	the flagless flagpole or the tree pole?
22	A. Yes.	22	A. I don't know.
23	Q. Okay. That's fine. So tree 12 could	23	Q. You don't know. Do you know the heights of
24	potentially could you use your pointer and identify	24	any of those trees that are less than 6 inches in
25	where tree 12 is?	25	diameter-breast height that are going to be needed to
	Page 59		Page 60
1	be removed as a result of this disturbance?	1	A. I do not.
2	A. No.	2	CHAIRMAN FLANAGAN: Mr. Simon, can I ask
3	Q. And you don't know obviously the extent of	3	you a question?
4	their canopies; right?	4	MR. SIMON: Of course.
5	A. Correct.	5	CHAIRMAN FLANAGAN: Just on that last point
6	Q. With regard to the canopies actually that	6	you made. So we have a diagram in front of us that
7	are shown on your A-34 did you go out and actually	7	somebody drew. Maybe this is a question for the
8	measure those?	8	witness. Who drew this, this site plan?
9	A. No.	9	THE WITNESS: That's the survey is the
10	Q. So how do you know that those tree canopies	10	background for the site plan. So our surveyor who did
11	that you're showing or depicting on A-34 accurately	11	all of this work drew those canopies.
12	depicted the canopies of those trees that are either	12	CHAIRMAN FLANAGAN: So the picture that
13	going to be removed or are to remain?	13	we're looking at, what is that A-34?
14	A. So our surveyor	14	MR. SIMON: A-34.
15	Q. The surveyor is not here.	15	CHAIRMAN FLANAGAN: So A-34 was that drawn
16	A. Correct. But his part of his process is	16	by the surveyor, or who drew that?
17	to compare an aerial diagram with his survey in	17	THE WITNESS: What part of it?
18	determining the extent of the branching.	18	CHAIRMAN FLANAGAN: The tree canopies.
19	Q. And has any of that been submitted to the	19	THE WITNESS: The surveyor.
20	Board?	20	CHAIRMAN FLANAGAN: All right. So this is
21	A. No.	21	a sealed document. And I'm just trying to understand
22	Q. And with regard to these trees that are	22	Mr. Simon's point. So it's a sealed document from a
23	going to be removed that are less than 6 inches in	23	surveyor. Can we not rely on that as accurate?
2 9		24	MR. SIMON: Well, it's not done by a
24	diameter, do you know how many of them are deciduous	~ -	That shires were not delice by a

Page 61 Page 62 CHAIRMAN FLANAGAN: Well, wait. He just 1 1 the survey that I did find was drawn by a gentleman 2 said it was done by a surveyor. 2 that has initials or a woman who has initials "S.H." 3 3 So who drew that diagram that we're looking okay. Is that you, Mr. Murawski? 4 THE WITNESS: S.H. is our surveyor. 4 at? 5 THE WITNESS: Who drew the what? 5 BY MR. SIMON: Q. Is your surveyor. Okay. And the survey 6 CHAIRMAN FLANAGAN: The diagram on the 6 7 7 screen, who drew that? was drawn by S.H., which makes a lot of sense. So now THE WITNESS: The extent of the branching 8 8 we're up to A-34? 9 of the existing trees --9 CHAIRMAN FLANAGAN: All right. So let me 10 10 CHAIRMAN FLANAGAN: Or any part of it. just pose that question, because I'm trying to 11 But, yes, in particular the branches, the extent of the 11 understand your point but I think you're saying we 12 branches on the trees. 12 shouldn't be able to rely on what we see depicted on 1.3 THE WITNESS: It was drawn by our surveyor, 13 the canopy. 14 as was everything that's existing on the site at the 14 MR. SIMON: Correct. 1.5 time of the surveyor. 1.5 CHAIRMAN FLANAGAN: And my question is, 16 16 CHAIRMAN FLANAGAN: So let me ask Steve. Steve, if we have testimony the surveyor drew it, the 17 MR. MLENAK: Are you talking about the 17 surveyor is not here but nonetheless he sealed the 18 18 plan. So can the Board rely on the extent of the tree proposed --19 CHAIRMAN FLANAGAN: No, I'm talking about 19 canopy as we see it depicted here? 20 the big tree, the 24-inch -- what is that, number one? 20 MR. SIMON: Mr. Chairman, I apologize to 21 I can't see. 21 cut you off. But these are not sealed plans. They're 22 So on the existing trees somebody drew that 22 23 canopy. I think he just said the surveyor drew it. 23 CHAIRMAN FLANAGAN: Okay. So you're --24 The surveyor is licensed. Mr. Simon found it's sealed. 24 MR. MLENAK: You're talking about the site 25 MR. SIMON: It's not sealed. And in fact, 25 plan or the survey are not sealed? Page 63 Page 64 1 1 MR. SIMON: I'm talking about the site saying on the survey the tree canopies are not shown? 2 2 MR. SIMON: They're not depicted. plan. The site plan is showing these tree canopies 3 that were not drawn by the surveyor because his 3 CHAIRMAN FLANAGAN: So the tree canopy on 4 4 this someone else came up with. I guess who drew those initials aren't on the plan. 5 5 MR. MLENAK: Was the survey submitted as tree canopies, if they're not on the survey? 6 part of the application? Is that what you're looking 6 THE WITNESS: Do you have our survey? 7 at S.H.? 7 MR. SCHNEIDER: Jim. 8 8 CHAIRMAN FLANAGAN: And just for the Board, MR. SIMON: Yes. There was a survey, a 9 9 frankly, I don't know if it makes a difference to me boundary parcel topographic survey. 10 10 MR. MLENAK: Was at that survey signed? personally what's drawn on canopies here. I saw them. 11 We all saw them. And it brings up a valid question, 11 MR. SIMON: That was sign, I don't know if 12 12 it was sealed, but from July 22nd of 2017. can we rely on what you said? 13 MR. MLENAK: Mr. Murawski, your plan that 13 MR. MLENAK: It's a question for the Board 14 14 in terms of the credibility of the witness, that the is before the Board tonight is based upon that survey 15 15 which was submitted as part of that application and witness is presenting information. If it's based on a 16 signed by S.H.? 16 survey that's signed and sealed as part of the 17 THE WITNESS: Yes. 17 application then typically the engineer will rely on 18 MR. SIMON: The original -- the building 18 that, he's presenting that. But what Mr. Simon is 19 19 and the outer metes and bounds description of the saying these canopies are not shown in that survey. 20 properties that's per the survey. I don't have any 20 MR. SCHNEIDER: Hold -- I think we're far 21 21 opposition to that, because it is what it is as it afield here. We have a site plan based on a survey 22 existed in 2017. What I take issue with is we're now 2.2 that's sealed. 23 23 MR. SIMON: From five years ago. five years later and we're showing tree canopies by 2.4 someone who's not the surveyor. 24 MR. SCHNEIDER: Let me finish, Rob, please. 25 25 CHAIRMAN FLANAGAN: All right. So you're I would respectfully suggest to the Board

Page 65 Page 66 that on the hundreds of applications that you've had in 1 A. I did not. 2 which an engineer testifies as to trees, on any ask, 2 MR. SCHNEIDER: Mr. Chairman, that's beyond 3 3 whether it's a residential, I would find it unusual if really the scope of what was presented here this 4 4 not nonexistent that you've asked the surveyor to be evening. 5 brought before the Board. 5 MR. MLENAK: He's already testified, you've 6 CHAIRMAN FLANAGAN: I'm not asking that, to 6 already cross-examined him, so I think --7 7 be clear. My question is simply, who drew the canopy MR. SIMON: Well, this is a different 8 8 application. that we're looking at on A-34? 9 9 THE WITNESS: They exist on S-1, which is MR. SCHNEIDER: It's not a different 10 10 application. It's a revision to the compound reducing the original survey. 11 CHAIRMAN FLANAGAN: So they're sealed? Is 11 it by 750 feet. Why topography within three-quarters 12 S-1 a sealed survey? 12 of a mile relates to anything that Mr. Murawski 13 1.3 THE WITNESS: Yes. testified to this evening befuddles me. 14 CHAIRMAN FLANAGAN: There you go. Is that 14 MR. SIMON: Well, whether you're befuddled 1.5 not correct, Mr. Simon? 15 or not, Mr. Schneider, the bottom line is that if you 16 MR. SIMON: Well, I'm going to move on 16 have a proposal that went from 140 feet when the 17 because I think I've made my point. 17 Applicant made requests for, you know, to properties as 18 CHAIRMAN FLANAGAN: I don't know if you 18 to whether they'd be interested in having a cell tower 19 have. I mean, don't let me move you one direction or 19 to 120 feet not asking, now down to 80 feet or 86 feet 20 the other, but -- all right. Go ahead. 20 depending on the type of monopole, that we believe it's 2.1 BY MR. SIMON: 21 incredibly relevant in determining whether there are 22 Q. Mr. Murawski, did you as an engineer 22 alternate sites that based on the topography of those 23 conduct any evaluation of topography or elevations for 23 sites would be more appropriate for the application. 24 any properties within three-quarters of a mile of the 24 If the application is currently proposed at 25 25 80 or 86 feet that there may be certainly other DPW site? Page 67 Page 68 1 catalog or showing specifications for a pole that 1 locations, dare I say, outside the Historic District 2 2 rather than, and I guess it's going to come from Mr. that would be appropriate for the sighting of a 3 monopole based on the reduced height. And that's why 3 Masters, bring in some photographs. You didn't 4 4 participate at all on any review of any catalog or I'm asking him about whether he did any -- based on the 5 5 reduction in the height if he did any review of any specification for that design; is that correct? 6 elevations of topography of other properties in the 6 A. That's correct. 7 7 MR. SIMON: I have nothing further for Mr. area. 8 8 MR. MLENAK: The question is related to the Murawski. Thank you very much. 9 9 CHAIRMAN FLANAGAN: Mr. Schneider, are you current height of 80 feet, which is now being proposed 10 10 by the Applicant as a condition of approval of this done with Mr. Murawski? 11 MR. SCHNEIDER: I am. 11 application which is not amending I think it's an 12 12 CHAIRMAN FLANAGAN: Thank you, Mr. appropriate question. 13 CHAIRMAN FLANAGAN: There we go. 13 Murawski. 14 14 BY MR. SIMON: THE WITNESS: Thank you. 15 CHAIRMAN FLANAGAN: Does the public have 15 Q. So have you? 16 16 any questions related to the testimony Mr. Murawski A. No. 17 MR. SIMON: Just give me a second. I think 17 gave tonight? So these are questions for what Mr. 18 18 Murawski spoke about tonight. Any member of the I'm done. 19 19 Q. Mr. Murawski, with regard to, you know, I public? (No response.) 20 know you haven't submitted anything regarding 20 All right. Oh, I see one. Can you come on 21 21 elevations on an engineer drawing or otherwise for up, give us your name and what do we need just the 22 22 either the proposed 86-foot tree or the 80-foot name -- we don't need your address just your street. 23 23 MS. SARAH CONINE: Hi. My name is Sarah flagless flagpole. 24 Mr. Schneider talked about earlier in his 24 Conine and I'm on 7 Lees Hill Road. My question was 25 25 introductory remarks about instead of going to a have you designed a facility like this this close to

	Page 69		Page 70
1	residents' homes before?	1	Hold on.
2	MR. SCHNEIDER: If you are involved in	2	MR. MLENAK: Ma'am, are you represented by
3	that, Mr. Murawski?	3	Mr. Simon?
4	THE WITNESS: Specifically ask that again,	4	Ms. FRANCES FRIGERIO: What?
5	near residents' homes?	5	MR. MLENAK: Are you represented in this
6	MS. CONINE: Yes. What's the closest?	6	matter by Mr. Simon?
7	THE WITNESS: Yes. We've been on	7	MR. SIMON: No.
8	residential properties.	8	CHAIRMAN FLANAGAN: Is Mr. Simon your
9	MS. CONINE: Close to residential	9	attorney.
10	buildings?	10	MS. FRANCES FRIGERIO: No. Can I sit down.
11	THE WITNESS: Yes.	11	CHAIRMAN FLANAGAN: No. That's fine. If
12	MS. CONINE: Thank you.	12	you said yes you had to sit down. Can you tell us your
13	CHAIRMAN FLANAGAN: Anyone else? Fran,	13	name?
14	come on down.	14	Fran, give us your name and where you live
15	MS. FRANCES FRIGERIO: I don't hear very	15	for the record.
16	well. I have hearings aides on.	16	Ms. FRANCES FRIGERIO: Excuse me. My name
17	CHAIRMAN FLANAGAN: So come on up front.	17	is Frances Frigerio. I live 10 Primrose Trail, on
18	MS. FRANCES FRIGERIO: So forgive me if I'm	18	Mount Kimbel Lake, Harding Township, hundred-year old
19	asking a dumb question.	19	Harding Township, by the way.
20	CHAIRMAN FLANAGAN: Hold on a second.	20	CHAIRMAN FLANAGAN: We have got to keep
21	Fran, you've got to go to the microphone.	21	moving. So what's your question for Mr. Murawski?
22	MS. FRANCES FRIGERIO: I'm sorry. I don't	22	MS. FRANCES FRIGERIO: Okay. I'm going to
23	hear well and I have hearing aides on. I wish you guys	23	be very quick. I'm going by this question of 2021.
24	would up your microphone.	24	Couldn't the same result I'm sure this has been
25	CHAIRMAN FLANAGAN: We are speaking loud.	25	answered but I haven't by placing antennas like
1	Page 71 Bernardsville on other structures? And I don't	1	Page 72 MS. FRANCES FRIGERIO: I'm sorry.
2	understand why not. The firehouse, because I hear	2	CHAIRMAN FLANAGAN: Keep coming. He's not
3	different stories, they have AT&T. It's working	3	their radio frequency engineer, right. So I don't know
4	wonderfully and they have antennas. Bernardsville has	4	if he's the guy to answer questions about different
5	antennas. Why is it that I have to go to the post	5	technologies. He was talking tonight about where
6	office every day and see that? It's very disturbing to	6	things are going to go on the property.
7	me.	7	MS. FRANCES FRIGERIO: Okay.
8	CHAIRMAN FLANAGAN: I don't know if that's	8	CHAIRMAN FLANAGAN: So I don't know if he
9	a question related to what Mr. Murawski spoke about.	9	can answer your question. The next person that comes
10	Can you answer any of those questions?	10	up maybe he can.
11	MR. SCHNEIDER: That's not	11	MS. FRANCES FRIGERIO: Okay.
12	THE WITNESS: No.	12	CHAIRMAN FLANAGAN: Do you want to sit up
13	MR. SCHNEIDER: that's not within Mr.	13	front so you can hear better? Sit right there.
<ul> <li>I /I</li> </ul>	Murawski's purview.	14	MS. FRANCES FRIGERIO: That's an attorney's
14	CECDETADA TACI AIDDIO - P. 1		chair.
15	SECRETARY TAGLAIRINO: Rich, use your		MP CIMON. I will mave my things for you
15 16	microphone.	16	MR. SIMON: I will move my things for you.
15 16 17	microphone.  MR. SCHNEIDER: I'm sorry. I appreciate	16 17	CHAIRMAN FLANAGAN: All right. Does
15 16 17 18	microphone.  MR. SCHNEIDER: I'm sorry. I appreciate the question, but that's not within Mr. Murawski's	16 17 18	CHAIRMAN FLANAGAN: All right. Does anybody else have any questions? (No response.)

Does anybody else have any questions? (No response.)  All right. Mr. Schneider, Why don't we take a five minute break.  (Whereupon, a short recess is taken at 8:30 p.m.)  (Back on the record at 8:36 p.m.)

Page 73 Page 74 1 SECRETARY TAGLAIRINO: Everybody, please 1 WILLIAM F. MASTERS, having been 2 sit. Mr. Boyan? 2 previously sworn, testifies as follows: 3 3 BOARD MEMBER BOYAN: Here. EXAMINATION BY MR. SCHNEIDER: 4 4 SECRETARY TAGLAIRINO: Mr. Addonizio? Q. Thank you. Mr. Masters, I indicated in my 5 BOARD MEMBER ADDONIZIO: Here. 5 opening remarks here this evening that there were two 6 SECRETARY TAGLAIRINO: Ms. Sovolos? 6 items within your purview that you were going to 7 BOARD MEMBER SOVOLOS: Here. address this evening. Let me deal with them in 8 SECRETARY TAGLAIRINO: Mr. Maselli? 8 sequential or nonsequential order as the case may be. 9 BOARD MEMBER MASELLI: Here. 9 MR. SCHNEIDER: Lori, would you be kind 10 10 SECRETARY TAGLAIRINO: Mr. Rosenbaum? enough to put up, actually, Exhibit A-33 first? 11 BOARD MEMBER ROSENBAUM: Here. 11 SECRETARY TAGLAIRINO: This is A-33? 12 SECRETARY TAGLAIRINO: Mr. Symonds? 12 THE WITNESS: Yes. It is on the right. 13 SECRETARY TAGLAIRINO: Is that enough of 1.3 BOARD MEMBER SYMONDS: Here. 14 SECRETARY TAGLAIRINO: Mr. Newlin? 14 that that you can see? 1.5 BOARD MEMBER NEWLIN: Here. 1.5 THE WITNESS: Yes. A-33 that's on the 16 16 SECRETARY TAGLAIRINO: Mr. Flanagan? right. CHAIRMAN FLANAGAN: Here. 17 17 MR. SIMON: Please identify. 18 SECRETARY TAGLAIRINO: Mr. Mlenak? 18 MR. SCHNEIDER: I will do so. 19 MR. MLENAK: Here. 19 BY MR. SCHNEIDER: 20 CHAIRMAN FLANAGAN: All right. Mr. 20 Q. Mr. Masters, I'm going to refer you to what 21 21 has been premarked as Exhibit A-33. And just by way of Schneider welcome back. 22 MR. SCHNEIDER: Thank you, Mr. Chairman. 22 background while you weren't present at the last 23 I'd like to re-call Mr. Masters and remind him that 23 hearing the Board did ask me, or certain members of the 24 he's still under oath. 24 Board asked whether (A) I would be willing to provide 25 25 MR. MASTERS: Understood. either so to speak catalog cuts or specifications of Page 75 Page 76 1 proposed trees, or potential in the alternative 1 you maximize this window, or do you need to go to back 2 photographs of certain trees that we felt or deemed 2 and forth? 3 3 MR. SCHNEIDER: No. Actually, Lori, you 4 4 In accordance with that request did I task can take the other one off for now. That's only 5 you to take photos of certain tree towers that you felt 5 relevant or might be more relevant relative to A-32. 6 appropriate? 6 CHAIRMAN FLANAGAN: And maybe zoom in, 7 A. You did. 7 Lori, so we can see just the photograph? 8 8 Q. And those three photographs are not meant THE WITNESS: It's just a photograph. 9 to be visual analysis as to its impact but just to show 9 Okay. The next one that is the tree pole 10 the design of a proposed tree; is that correct? 10 at the DelBarton School at 230 Mendham Road in Morris 11 A. Correct. 11 Township. The height of that pole is 100 feet. There 12 12 Q. And without me interrupting you could you appears to be currently three carriers on that pole. indicate which trees you took photos of and relevant 1.3 13 And the third one I believe this was a tree 14 14 pole that one of the Board members may have mentioned information as to each of those three? 15 A. Okay. The first image is a photograph of 15 at one of the prior hearings. This tree pole is 16 an existing tree pole at 22 Van Sickle Road in 16 located just off of eastbound Route I-78 in Clinton 17 Lafayette Township in Sussex County. The top of that 17 Township near the Petticoat Lane overpass. The height 18 pole is at a height of 150 feet. That photograph was 18 of this tree pole is 110 feet, 115 feet to top of 19 taken on March 14th of this year. Next one. 19 branching. This pole is a T-Mobile tree pole. 20 BOARD MEMBER NEWLIN: That's the one we're 20 MR. SCHNEIDER: Lori, can we now go to 21 21 looking at right now, right? Exhibit A-32? Take your time. 22 MR. SCHNEIDER: That's correct. In the 22 BY MR. SCHNEIDER: 23 left-hand corner it indicates the address. 23 Q. Okay. Mr. Masters, the Board at the last 24 CHAIRMAN FLANAGAN: Lori, are we going to 24 public hearing asked the Applicant whether we would 25 just go through the series that are on this slide? Can 25 consider providing a visual analysis based on the

Page 77 Page 78

was done back in 2018.

A. It is. Would it be possible to shrink that image down just a tad so we get the image identification number in the upper, right-hand corner of the photograph? Thank you.

Q. Before we go into some of the details of the visual analysis at 80 feet I'm going to try to save everybody some time here and save maybe ten to 15 minutes of Mr. Simon's cross-examination.

Can you indicate the means by which these particular simulations were prepared, or alternatively were the simulations that are reflected in A-32 based on the location and same means as your previous visual analysis reflected in Exhibits A-28, A-29 and A-30?

A. Yes. These are adaptations, if you will, of the prior photo simulations that were submitted to this Board as a result of the original crane test, which was conducted on February the 27th, 2018.

Kind of ironically, or at least interestingly, here we are maybe 49 months later, and the latest shift of the pole pretty much puts the pole back to where it was originally when that crane test

Q. Let me just interrupt you, because Mr.

Simon made or engaged in extensive cross-examination of you and made a lot of -- and devoted a portion of his closing statement taking issue with the deviation from the proposed tower location versus where the crane test was taken. So can you comment on that as you were about to address that?

A. Right. The location where the crane was set up back in 2018 was situated 59.6 feet from Lot 9.04, that would be the lot to the east. The subsequent location of the pole on the actual site plan application was 58.1 feet, a very minor shift of one-and-a-half feet or 18 inches.

The original location from the crane test relative to the Conine Property Lot 55 -- and I just want to -- I think I heard earlier this evening that that lot was referred to as Lot 5. And it could either be my hearing or -- I just wanted to make sure that the lot is Lot 55. The original location was at 120.9 feet. The location on the site plan submittal was 93.6 feet from that lot line, which also coincides with the Federal and state Historic District boundary line. So in other words, the variance that we were seeking as part of the application for the setback to

Page 79

1

Page 80

the Historic District boundary line was 93.6 feet, which was the setback distance to Lot 55.

The current location to Lot 55 is now 119.5 feet, which is 25.9 feet further from that lot line and the Historic District boundary line that was the subject of the site plan application, and is now 1.4 feet, less than a foot and a half from where the crane was set up for the crane test.

The first image up on the screen identified as image 1F, and I believe the Board has the photo location aerial photograph where the eight photo locations were superimposed in yellow circles on the aerial photograph. Lot 1F is the --

14 MR. SCHNEIDER: Picture 1F? 15 THE WITNESS: I'm sorry?

16 MR. SCHNEIDER: Picture 1F. 17

THE WITNESS: What did I say, Lot 1F?

Picture 1F is a view of the proposed 19 80-foot pole, 86 feet top of branching taken from the 20 entrance driveway to the Harding Township Department of 21 Public Works and Recycling Center. The "F" designation

22 refers to the fact that this is the sixth series of 23 photo simulation alternatives for this project. A, B,

24 and C were tree poles at higher heights, 146 feet, 126 25

feet, 106 feet. "D" was the flagless flagpole at

120 feet. And "E" was the flagless flagpole at a 2 hundred feet. So this represents the 86-foot top of 3 branch height of the tree pole taken from the entrance 4 to the DPW facility, again identified as image 1F.

> Q. And just so we're -- just so we're clear, Mr. Masters, to so to speak, apples to apples, these are the same vantage points that have been shown on all of the prior visual analysis, correct? You didn't take it from any different locations, you just based it on the original crane test and they're from the same location; is that correct?

A. That's correct. And that's also -- that particular vantage point that was taken at the eastern boundary of the New Vernon Historic District.

The second image 2F, photograph taken from Village Road at number 17. That being the entrance to the new -- excuse me, to the New Vernon Post Office and Cafe/Deli Restaurant. That photograph was taken from within the New Vernon Historic District. The 86-foot tree pole shown in the center portion of the photograph to the left of the post office.

Image 3F photograph that was taken from Village Road with evergreen number eight and number ten. This of course is also within the New Vernon Historic District. The proposed tree pole being

	Page 81		Page 82
1	located below the prevailing tree height of the	1	CHAIRMAN FLANAGAN: Where the cursor is
2	deciduous trees that you see in the center portion of	2	currently?
3	the photograph. Towards the back of the driveway there	3	THE WITNESS: Yes. Can we just real
4	to the right of the evergreen that's just to the right	4	quickly go to exhibit what is it, 128?
5	of the eve of the dwelling, and just to the left of the	5	MR. SCHNEIDER: A-28.
6	evergreen that is in the, I would refer to it as dead	6	THE WITNESS: A-28 and go to 4A.
7	center.	7	CHAIRMAN FLANAGAN: And to be clear, what
8	CHAIRMAN FLANAGAN: Mr. Masters, could you	8	we're looking at on the left-hand side of the screen
9	just put the laser pointer	9	that's at a different height; correct?
10	SECRETARY TAGLAIRINO: I changed the	10	THE WITNESS: Correct. Yes, that's it
11	batteries. Yellow button, please.	11	right there.
12	THE WITNESS: So there's the	12	SECRETARY TAGLAIRINO: That's the crane.
13	CHAIRMAN FLANAGAN: Where's the pole?	13	THE WITNESS: Yes. Yes. And there's the
14	Where's the tower?	14	tree. And the new tree is that, right in there behind
15	THE WITNESS: That's the 86, right there	15	that tree right there. Five F, view taken from the
16	where the white cursor is between the existing	16	backyard of 7 Lees Hill Road. This is within the New
17	evergreen there and the existing evergreen there. Four	17	Vernon Historic District, maybe we could just we can

THE WITNESS: It's in there. MR. MLENAK: Maybe go to the crane photo of 29? THE WITNESS: We can go back to image
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	at image 7A, if we could.  SECRETARY TAGLAIRINO: Well, there's the crane.  THE WITNESS: There we go. We can now scan over to 7F.  CHAIRMAN FLANAGAN: Mr. Schneider, if you can make the tower look like we see in that photo. (Laughter.)  For the public, it's not visible on the screen.  BOARD MEMBER MASELLI: It must be the stealth version.  CHAIRMAN FLANAGAN: It's got to be right where Lori's cursor is, or it should be right where Lori's cursor is.  THE WITNESS: It's between  CHAIRMAN FLANAGAN: Is it on there?  THE WITNESS: Yes, it is. It's right there.  CHAIRMAN FLANAGAN: Lori, can you zoom in more?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	THE WITNESS: It's in there.  CHAIRMAN FLANAGAN: Can you make it where those two are split so you can see them at the same time?  SECRETARY TAGLAIRINO: I'm getting there. Hold on. I was not on the AV club at school. I have to scan out a little bit.  CHAIRMAN FLANAGAN: It's right over the center of that dark truck, right?  THE WITNESS: Yes. Like, actually over the top of the red cab of the dark truck. Right.  CHAIRMAN FLANAGAN: But it's missing. Would you agree it's not on this photo, Mr. Schneider?  THE WITNESS: Right in there.  CHAIRMAN FLANAGAN: Is it in there, or is it missing entirely?  THE WITNESS: It's in there.  MR. MLENAK: Maybe go to the crane photo of 29?  THE WITNESS: We can go back to image seven, which is the photo of the crane.

Page 85 Page 86 1 1 crane. Of the eight photos that were presented 2 CHAIRMAN FLANAGAN: You see the crane 2 both on the A-28, A-29 A-30, as well as now A-32, how 3 3 there? many were taken from either the Historic District or on 4 4 THE WITNESS: Do you see the top of it the border of Historic District? 5 there? The cursor's going around it. 5 A. Within the district and/or on the border of 6 SECRETARY TAGLAIRINO: Here's the crane. 6 the district six of the eight photographs were taken 7 7 Oh, yeah. from the New Vernon Historic District. 8 8 MR. MLENAK: I see it now. BOARD MEMBER BOYAN: I'm sorry. Quick 9 9 BOARD MEMBER MASELLI: See those three question for Counsel. Is it appropriate to be 10 trees, one, two, three? It's in the middle one. Look 10 rebutting a closing statement? 11 11 down lower. But it's really either blurred out or MR. MLENAK: I was going to comment the 12 something. 12 same. I thought the purpose of this was to introduce 13 THE WITNESS: Well, it's hard to see it 13 these new exhibits based on the conversation from the 14 because it's blocked by the trees that are in front of 14 15 it from that vantage point. 15 MR. SCHNEIDER: Okay. That's fine. 16 Okay. Image 8F taken from the driveway at 16 BY MR. SCHNEIDER: 17 28 Millbrook Road. 17 Q. Relative to the means by which the exhibits 18 BY MR. SCHNEIDER: 18 were prepared you did not show the removed -- the trees 19 19 that are proposed to be removed; is that correct? Q. Mr. Masters, before we get into the 20 conclusion as to A-32, Mr. Simon in his closing remarks 20 A. That's correct. 21 took issue with whether you had -- noted by the way you 21 Q. Nor did you show the supplemental 22 having grown-up in Harding, and commented extensively 22 landscaping; correct? 23 on whether you had given appropriate consideration to 23 A. Correct. 24 the visual impact on properties within the Historic 24 Q. The -- what are your conclusions relative 25 25 District. to the impact, if any, as to the reduction of the Page 87 Page 88 height to 80 feet as a condition of approval? 1 the 126 foot proposal, and even further to the 80 feet 1 2 A. I think it would fall within step three of 2 for a flagless flagpole would certainly improve the 3 the Sica Balancing Test relative to the negative 3 application -- strengthen the application from the 4 4 criteria analysis, where in appropriate locations -- in standpoint of the Sica Balancing Test as far as 5 5 appropriate instances the Board may impose reasonable mitigating or ameliorating detrimental impacts. 6 conditions on the application in order to reduce or 6 Q. In fact, when you testified as to the third 7 mitigate detrimental impacts, in this case the visual 7 prong of the Sica Balancing Test did you not indicate 8 8 impact based upon the height of the proposed structure. that the height was a relevant consideration as the 9 9 Board assessed what conditions may reasonably be Q. Before we get to that, let me go back for 10 one moment. The second prong of the Sica Balancing 10 imposed on the application; correct? 11 11 Test asks or requires the applicant to identify any A. Yes. I mean, at the end of the day when it 12 detrimental impacts. Let me cut right to the chase. 12 comes to, you know, wireless telecommunications 13 13 You indicated in rather pain staking detail the benign applications from a planning perspective visual impact 14 14 operational nature of the facility, and ultimately is customarily the greatest focus and greatest concern. 15 15 concluded that the visual impact did not rise to the Q. And in your opinion, therefore, the 16 level of substantial impact. 16 reduction in height as a condition of approval fits 17 Based on that original opinion is that 17 squarely within the third prong of the Sica Balancing 18 18 opinion reaffirmed by, or in any way ameliorated or Test? 19 changed by virtue of the 80-foot visual analysis that 19 A. I do believe that, yes. 20 you have prepared? 20 Q. And not withstanding whatever impacts there 21 21 A. Yes. I think, you know, I think common are relative to service, when you go to the fourth

22

23

24

25

22

23

24

25

sense would dictate that the lower -- that the

less of a visual impact. So I think clearly by

structure can be reduced in terms of its heighth, be

reducing the height of the tree pole by 40 feet from

prong of the Sica Balancing Test and you balance that

level of service verse the reduced impact, the visual

impact I should say as reflected in A 32, what

conclusion do you reach?

Page 89 Page 90 1 1 tree pole in Morris Township. A. I believe that the -- once again, the scale 2 2 tips in favor of the positive in balancing the positive MR. FOX: Okay. So what you used is 3 3 benefits versus the negative detrimental impacts. The something that is available --4 4 obvious detrimental impact here would be a reduction in THE WITNESS: Similar to that branching. 5 overall coverage, radio frequency coverage for Verizon 5 MR. FOX: Commercially available? 6 Wireless, but I believe that the -- that the benefits 6 THE WITNESS: Right. 7 -- by proposing a significant reduction in height here MR. FOX: Okay. Thank you. 8 outweighs the negative, and that the scale tips in 8 CHAIRMAN FLANAGAN: And on that point then, 9 favor of the positive criteria. 9 so -- do you know, is the tree, the artificial tree 10 Q. And would your opinion be equally 10 tapered, meaning that the branches at the top have a 11 applicable if the Board so elected in its wisdom to 11 smaller diameter than do the branches at the bottom, 12 condition the approval on an 80-foot flagless flagpole? 12 like a real tree would? 13 A. Yes. I believe it would. 13 THE WITNESS: Yes, they do, which is 14 MR. SCHNEIDER: Thank you, Mr. Masters. I 14 depicted in the photo simulations. The general length 15 have nothing further, Mr. Chairman. 15 of branching at the bottom extends out approximately 16 MR. FOX: Mr. Schneider, before we get too 16 20 feet, 10 feet to each side. And they taper up in a 17 far afield from the testimony about the photo 17 pyramidal fashion to the top; whereas, the top 5 or 18 simulations, has there been any testimony about what 18 6 feet which actually extends above the top of the pole 19 was used in terms of manufacturer, make, and model 19 itself is simply additional branching to create a point 20 number of the artificial tree? 20 on the top so it doesn't have that --21 THE WITNESS: Not from me. 21 BOARD MEMBER NEWLIN: To make it look more 22 MR. FOX: Okay. So what did you use for 22 like a tree; correct? 23 the photo simulations? 23 THE WITNESS: Right. So it doesn't look 24 THE WITNESS: The actual branching habit of 24 like a bottle brush like the one on 287 at Exit 22. 25 the simulated tree pole was taken from the Delbarton 25 BOARD MEMBER NEWLIN: May I ask a question? Page 91 Page 92 CHAIRMAN FLANAGAN: Yes. 1 1 take that into consideration at the outset when you're 2 2 BOARD MEMBER NEWLIN: Of the two, Mr. designing the pole in terms of the foundation, the 3 Masters, I don't know if this is your expertise or not, 3 depth of the foundation, the size, the diameter of the 4 4 base of the pole, you know, needs to be factored in at but the other two technologies, the pole and the tree, 5 5 if I can use that, which is easier to extend? Which is the beginning in order to determine whether or not that 6 more cost effective to extend? 6 pole can be extended, because if it's not then it's a 7 THE WITNESS: Generally, the flagpole is 7 good possibility that that pole will not be able to be 8 8 easier to extend because you're essentially adding what extended. 9 9 BOARD MEMBER NEWLIN: That's exactly my they call radomes which are the portions, the top 10 portion of the flagpole where the antennas actually sit 10 question. Is this being designed to be extended? THE WITNESS: I honestly don't know the 11 inside the flagpole so you don't actually see the 11 12 antennas. So they kind of, you know, get stacked above 12 answer to that question. 13 13 the structural part of the tree pole. MR. SCHNEIDER: The answer, Mr. Newlin, is 14 14 we can, but the Board has made inquiry to me -- not The difficulty with extending a flagpole. 15 The difficulty with extending tree poles is the 15 made inquiry. The Board has suggested to me that it 16 pyramidal branching habit that you now have to recreate 16 not be made extendible. So the answer is the Applicant 17 because obviously, you know, evergreen trees don't grow 17 18 18 BOARD MEMBER NEWLIN: Leaned heavily, like this, they grow like that. So you have to 19 re-branch the lower portion of the tree in order to 19 perhaps, rather than suggested. 20 maintain the pyramidal character. 20 MR. SCHNEIDER: But the answer is the 21 BOARD MEMBER NEWLIN: It's not really a 21 Applicant can certainly -- there is no issue 22 22 structural challenge. It's just you have to re-branch whatsoever. 23 23 BOARD MEMBER NEWLIN: I didn't ask could everything, is that what you're saying? 24 THE WITNESS: Right. I mean, if you're 24 you, I wanted to know are you. So right now, no, 25 designing the pole to be extendible you really need to 25 you're not designing for extension?

Page 93 Page 94 MR. SCHNEIDER: That's correct, but it's 1 BOARD MEMBER NEWLIN: That was very early 2 easily --2 in the case. Actually this is --3 3 CHAIRMAN FLANAGAN: But let me say then, CHAIRMAN FLANAGAN: Well, was the goal to 4 4 minimize the number of towers that may have to be because from my perspective it needs to be extendible. 5 The whole concept was it be built for what's needed, 5 built, actually? 6 not for what may be needed down the road. Right. And 6 BOARD MEMBER NEWLIN: Because this is like 7 7 I think one of the considerations is -maybe one of the biggest points open that --8 CHAIRMAN FLANAGAN: Whether it can be 8 BOARD MEMBER ADDONIZIO: Not extendable. 9 9 extended or not? CHAIRMAN FLANAGAN: I'm sorry? 10 BOARD MEMBER NEWLIN: What the risk is. 10 MR. SCHNEIDER: You said "extendable." 11 BOARD MEMBER NEWLIN: We don't want it to 11 Should we go into that now or wait? 12 MR. MLENAK: I think you should ask 12 be designed to be extendable. 1.3 whatever questions of this witness do you think is BOARD MEMBER ADDONIZIO: Extendable means 13 14 necessary to have that discussion or have the 14 higher in height? 15 15 discussion in place at the time --CHAIRMAN FLANAGAN: Yes. 16 MR. SCHNEIDER: The answer from the 16 BOARD MEMBER ADDONIZIO: Versus not 17 Applicant's perspective, from a structural perspective 17 extendable. 18 the tower can be built to be either extendible or not 18 CHAIRMAN FLANAGAN: No. Well, I think --19 extendible. 19 was the discussion we had not that we want to build 20 BOARD MEMBER NEWLIN: But you said under 20 this tower at a height no greater than what is required 21 this application so far it's built to be not 21 for this application, right? However, there is -- I 22 extendible. 22 can't remember where it is, but a mandate to make sure 23 MR. SCHNEIDER: It's built not to be 23 this thing could be extended. It can accommodate 24 extendable because to use your phrase --2.4 collocators, no? 25 BOARD MEMBER NEWLIN: I'm not asking you 25 BOARD MEMBER ADDONIZIO: At a lower height. Page 95 Page 96 1 because. I'm just asking you whether what's the 1 MR. SCHNEIDER: Well, I'll send them the 2 2 transcript to let them know that. situation --3 MR. SCHNEIDER: I don't think -- we can do 3 Let me draw on 30 years of experience, and 4 4 either, but the clear direction that I was receiving, please don't take that in an arrogant manner. Most 5 5 and if I'm mistaken I apologize, was that you were Boards, most Boards impose a condition that the tower 6 going to set a height limit and you wanted me to go to 6 be structurally designed to be extendible. 7 the Township Committee to ensure that the tower would 7 BOARD MEMBER NEWLIN: To be what? 8 8 not be increased in height. That was the direction I MR. SCHNEIDER: To be structurally 9 received. If I'm --9 extendible. The reason, if I can -- the reason why 10 10 BOARD MEMBER NEWLIN: That was my personal that's done from experience is Boards want to maintain 11 11 the flexibility of ensuring that if a tower is approved view. 12 MR. SCHNEIDER: If I'm in error I stand 12 in construction that it has the ability to accommodate 13 corrected, but if the Board wanted to in the 13 the maximum number of collocators and to avoid multiple 14 alternative maintain the flexibility to give a 14 towers. That's generally how the process unfolds. 15 15 collocator the right to extend it it is absolutely and Let me take one step back. Mr. Simon, 16 unequivocally no issue for the Applicant to design 16 myself and Dr. Eisenstein were involved in the King 17 either the flagpole or the tree to be structurally 17 Shopping Center --18 BOARD MEMBER NEWLIN: Rich, I'm sorry. To extendible. 18 19 CHAIRMAN FLANAGAN: What is the -- fair 19 me this is wasting time. 20 20 MR. SIMON: What are we talking about? enough. 2.1 MR. SCHNEIDER: I'm not looking to avoid 21 BOARD MEMBER NEWLIN: This is a Historic 2.2 your answer. I'm not. I'm just trying to -- I'm 22 District. This is not a commercial district. Those 23 willing to do either, it's --23 rules to me don't apply. This is a very unique 24 BOARD MEMBER NEWLIN: You're a good 2.4 situation. I understand. We all understand. 25 25 attorney for Verizon, for sure. CHAIRMAN FLANAGAN: So in fairness, you're

Page 97 Page 98 1 CHAIRMAN FLANAGAN: So to repeat what I 1 happy to design it either way, either extendible or not 2 extendible? 2 think I heard -- to repeat what I think you just said, 3 3 MR. SCHNEIDER: Correct. to confirm it, the flagless flagpole is a 4-foot 4 4 CHAIRMAN FLANAGAN: And we can deliberate diameter near the base. It is 3-foot diameter at the 5 whether or not we want one or the other. 5 radome. A tree is 5-foot diameter, and it is 18 inches 6 MR. SCHNEIDER: I'm sorry for diverging. 6 at the top? 7 CHAIRMAN FLANAGAN: No, not at all. Mr. 7 THE WITNESS: Correct. 8 Masters, what's the diameter of the pole for a tree, 8 CHAIRMAN FLANAGAN: Am I mistaken that the 9 and what's the diameter for poll -- a flagless flagpole 9 Green Village tower the radome is a greater diameter 10 both at the lower part and at the upper part? And I 10 than the shaft that's below it? And maybe it's not 11 forget what you call it, the radomes. 11 just the Green Village, but I've certainly seen towers 12 THE WITNESS: The normal diameter for the 12 where the radome is larger diameter than is the pole? 13 bottom of a tree pole is 5 feet. The base diameter of 13 THE WITNESS: As have I. 14 a flagpole is 4 feet. The top diameter of a flagpole 14 CHAIRMAN FLANAGAN: Okay. That wouldn't be 1.5 is generally about 18 inches. The diameter of the top 15 the case here? 16 of a flagpole is generally 3 feet. The reason for that 16 THE WITNESS: It kind of looks like a pole 17 being that on a tree pole the antennas are not inside 17 with a sleeve at the top of it. 18 the pole, they're attached with a framework outside the 18 CHAIRMAN FLANAGAN: Yes. That's not the 19 pole. So the pole itself can be more slender. The 19 case with this one? 20 diameter of the flagpole has to be larger because the 2.0 THE WITNESS: Correct. 2.1 top portion of the flagpole is what I previously 21 CHAIRMAN FLANAGAN: Why is that? Why is it 22 referred to as a radome, which is an RF friendly --22 different? 23 CHAIRMAN FLANAGAN: And what's that 23 THE WITNESS: Well, I personally -- why is 24 diameter for the radome? 24 that? Just what the design would be of this flagpole. 25 THE WITNESS: Three feet, 36 inches. 25 I personally --Page 99 Page 100 1 CHAIRMAN FLANAGAN: So could you make the 1 carriers. Larger antennas are now being deployed 2 lower portion of the flagless flagpole a smaller 2 taller and wider. So that radome, that fiberglass 3 diameter than 4-foot, make it say 2-foot and then have 3 shaving in its original diameter cannot contain the new 4 4 the radome with three? antennas. So they simply modified the pole to put a 5 THE WITNESS: I don't know the answer to 5 larger diameter radome sheeting over the larger 6 that question. 6 antennas that are in use today. 7 CHAIRMAN FLANAGAN: Mr. Schneider, do you 7 CHAIRMAN FLANAGAN: Okay. So the older 8 8 poles were skinnier. The antenna fit inside the older know? 9 MR. SCHNEIDER: If anyone would know it 9 poles. Now the new antennas are bigger so now you need 10 10 would be Mr. Murawski. a 3-foot diameter radome to fit this. 11 MR. MURAWSKI: I've never seen a design 11 THE WITNESS: Generally that's correct. 12 CHAIRMAN FLANAGAN: Is it "raydomb" 12 like that. 1.3 CHAIRMAN FLANAGAN: I've seen several of 13 d-o-m-b? 14 14 THE WITNESS: D-o-m-e. them. 15 MR. MURAWSKI: Those are older poles. 15 CHAIRMAN FLANAGAN: So 4 foot at the 16 CHAIRMAN FLANAGAN: Go ahead. 16 bottom, 3 foot at the top, the flagless flagpole, 17 17 THE WITNESS: Should I use this one? versus 5 to 18 inches. SECRETARY TAGLAIRINO: Yes. 18 BOARD MEMBER NEWLIN: Do we have any idea 18 19 MR. MURAWSKI: So those poles are older 19 what Green Village is then? That's a comparison. 20 design that had a smaller diameter to begin with, and 20 CHAIRMAN FLANAGAN: Do we know what Green 21 21 the antennas that were popular at the time and in use Village is? 22 at the time were smaller and they fit within the 2.2 I think Green Village is beefier at the 23 diameter of that particular pole at that time. 23 top. 24 Subsequently, ten years later, antenna 24 THE WITNESS: I remember Green Village 25 25 upgrades are happening all across the state by all the having that -- it has that sleeve at the top.

Page 101 Page 102 BOARD MEMBER NEWLIN: But is that roughly 3 1 what the general ground baseline is of the pole and we 2 feet at the top, too, just for comparison purposes? 2 know what the top of the crane is, and that was at 146 3 3 THE WITNESS: I don't know if it's feet. We're now taking a pole that's slightly greater 4 4 sleeveless. Sleeve could be larger. I don't know. than 50 percent of the height, 58.9 percent to be exact 5 BOARD MEMBER MASELLI: It looks smaller. 5 of the height of the original pole and superimposing 6 6 CHAIRMAN FLANAGAN: Okay. Anybody else? that where the original pole was at 146 feet. 7 7 BOARD MEMBER SYMONDS: I understand and I BOARD MEMBER SYMONDS: I have a questions 8 8 for Mr. Masters. Mr. Masters, especially now that most appreciate that the elevation of the pole is fairly 9 9 of the tree is now down below the tree, or most of the simple geometry. What I'm trying to get at is the 10 10 antenna is now below the treeline, could you explain to visibility. In other words, you know, you're showing 11 me a little bit of the process of creating this photo 11 that -- in the view we see right now you're showing 12 simulation? I assume it's a piece of software. How 12 that pole, the bottom portion of that pole we'll say, 13 13 does it determine the transparency associated, or the is obscured by the tree cover. And the question I'm 14 14 purification factor for the trees and determine what trying to get to the bottom of is the degree of that --1.5 trees are in front of the structure, what trees are 1.5 you know, the degree to which it is obscured is that 16 behind. How is that done? 16 something that the software calculates somehow or is 17 17 THE WITNESS: Again, these were formulated that something that the operator says, well, it's going 18 off of original simulations that were done from 18 to be 10 percent, 20 percent, 30 percent, 40 percent 19 photographs of a crane that was actually put out there, 19 2.0 so we had the photograph of the crane boom so we could 20 THE WITNESS: It's done through the 2.1 see what the visibility was from the various vantage 21 computer program coupled with the fact that, again, we 22 22 have the original photo simulations that we could see points. 23 The factor -- it's a computer program where 23 the crane where it was projecting up behind the 24 24 it proportionately reduces the height of the structure existing vegetation and where it came out above the 2.5 25 from what it was previously. We know -- we established height of the existing vegetation, and that tells us Page 103 Page 104 1 based upon where we're able to see the base of the 1 THE WITNESS: Again, from the Applicant's 2 crane is where we're able to see the tree behind the 2 perspective that's a detriment. But in terms -- the 3 existing deciduous vegetation below the tree line. 3 Sica Balancing Test is a weighing process of balancing 4 4 BOARD MEMBER SYMONDS: So again, is it the positives against the negatives. The Applicant 5 5 here is willing -- I believe -- someone can correct me something the operator determines or is it something 6 the software determines? 6 if I'm wrong, I believe the coverage, if the school was 7 THE WITNESS: It's something that the 7 depleted in one of the frequency bands but not both of 8 8 software, it's called Studio 3D. It's a computer the bands, but in any event I believe that the visual 9 application. 9 benefit of reducing this thing 40 feet that's a 10 10 BOARD MEMBER SYMOND: Thank you. significant reduction in the height of the pole 11 CHAIRMAN FLANAGAN: Anybody else on the 11 outweighs the loss in the coverage area. 12 12 Board? MR. MLENAK: So whatever reduction in the 13 1.3 MR. MLENAK: I have a question. public interest is, in your opinion, made up for by the BOARD MEMBER BOYAN: I'd be happy --14 14 benefit of the reduced visual impact? 15 15 CHAIRMAN FLANAGAN: Steve has a question. THE WITNESS: Correct. 16 MR. MLENAK: George has a question. 16 CHAIRMAN FLANAGAN: George? 17 CHAIRMAN FLANAGAN: George has a question? 17 BOARD MEMBER BOYAN: I'm glad I let Counsel 18 You guys can duke it out. Whoever wants to go first. 18 go first because he set me up nicely here. 19 19 MR. MLENAK: Mr. Masters, you commented on The 40-foot change you just described as 20 the impact to steps two, three, and four of the Sica 20 substantial, and as a result of that substantial 21 21 test. I think at the last hearing there was testimony reduction you believe that it increases the detrimental 2.2 that by lowering it to 80 feet it does eliminate the 2.2 effects so that when you do the balancing of step four 23 service to the school. So can you comment on the 23 of the negative criteria it balances in the favor of 24 impact of lowering it 80 feet on the first step which 24 the application; is that your testimony?

25

25

is public interest?

THE WITNESS: Yes.

Page 105

2.2

Page 106

BOARD MEMBER BOYAN: So then why is the change, the 40-foot change which you described as substantial, not substantial enough to reopen the requirement under the positive criteria to look for alternative sites at this new 80-foot level?

1.5

THE WITNESS: I don't know that we have — for one thing I don't know that we have willing landlords for alternate sites.

BOARD MEMBER BOYAN: Well, let's be clear, though. The reason we don't have willing landlords at the 80-foot height is partially because we haven't asked any landlords at the 80-foot height; is that correct?

THE WITNESS: True. That's a decision that I guess the Applicant would have to make in terms of recontacting the other candidates that were looked at initially.

BOARD MEMBER BOYAN: I agree with that comment, and I think it's a decision that the Applicant has made.

MR. SCHNEIDER: Right. The decision has been made by the Applicant, but let's not lose site of the fact, which has been loss site of, that the Harding Township Elementary School is subject to the same bidding laws as the Township. If the Harding Township Elementary School at any time since 2018 or 2019 wanted to go out to bid they could have gone out to bid, and imposed whatever height requirement they so chose.

BOARD MEMBER BOYAN: I completely agree, but I don't know that that relieves the Applicant of the requirement under the positive criteria to seek alternative sites. And when it was done at the elementary school it was done at, I believe, 140 foot, which is almost 50 percent shorter than what was contemplated today.

MR. SCHNEIDER: The numbers are what the numbers are. I've indicated to you that I think that the Applicant given the length of time has made a very good-faith effort. If the Harding Township Elementary School wanted to go out to bid at 80 feet it would have had the right at any time, or any lower height that it so chose. It chose not to and now five-and-a-half years after the original bid to now engage in a public bidding process with the Harding Township Elementary School, which I would note by the way since you brought up the subject, requires the same use variance, same nature of the variance relief. There's no different zoning applicable to the Harding Township Elementary School than it is to the DPW property. Same nature of the relief that's sought -- wait, let me finish --

Page 107

same nature of the relief that's sought. And for all the reasons that I indicated in my cross-examination of Mr. Steck represents a far greater intensification relative to an existing use in the Harding Township DPW property.

CHAIRMAN FLANAGAN: So let me ask, and guys, you'll get a chance to ask questions as you go along with the application. So Steve, Mr. Simon brought it up earlier, the question whether this is an amendment or a new application. And I think we're touching on it again, George's point, given this is — I'm not going to characterize it, but a minimum different height tower. Does it necessitate, you know, I think Mr. Simon replied, either a new application or how do we as a Board think about that?

MR. MLENAK: So the application that was filed was for a hundred feet and I believe it was amended for 120 feet.

MR. SIMON: Hundred and forty.

MR. MLENAK: A hundred-forty feet, and that would be the application before the Board. What the Applicant is proposing is to not amend the application but to ask that if you wanted to condition that as part of your third step in the Sica Balancing Test to approve it only at a height of 80, 86 feet, whatever it

Page 108

is, that they would accept that condition. That does not require an amendment to the application.

With respect, however, to whether they have an obligation under the positive criteria to seek alternative sites, that's a fact-based inquiry that you will need to make. And you will need to make it at 140 feet. And if you so condition it at 80 feet it is a reasonable question to ask before you vote on that whether or not that has been accomplished by the Applicant.

BOARD MEMBER BOYAN: If I could just rephrase to make sure I understood what you said. Because it's a fact-based argument it's up to this Board to determine whether or not that's a reasonable and good-faith effort?

MR. MLENAK: Correct. Subject to the standard -- the evidence in the record to support that.

BOARD MEMBER BOYAN: Thank you.

19 CHAIRMAN FLANAGAN: All right. Anyone else20 on the Board?

BOARD MEMBER ROSENBAUM: Just so it's clear in my head. So at the 86-foot if another carrier wanted to come they would have to accept what, 60 feet, or alternatively decide they wanted another tower or pay for this tower to be rebuilt, extended, are those

Page 109 Page 110 1 1 the options? tower --2 2 MR. SCHNEIDER: Are we referring to a MR. SCHNEIDER: They would have to argue 3 3 flagpole or a tree? I'm not being snooty -that whatever height they were proposing on the new 4 BOARD MEMBER ROSENBAUM: Well, okay. 4 tower justifies their inability to use the 70-foot 5 Educate me on both. 5 elevation in a concise manner. 6 MR. SCHNEIDER: Sure. If it was a tree, 6 MR. MLENAK: The 70 foot requires the same 7 because each carrier only takes one elevation, and 7 8 let's assume 80 feet for the purpose of this 8 CHAIRMAN FLANAGAN: Fair enough. 9 9 BOARD MEMBER NEWLIN: And you're not discussion. 10 10 BOARD MEMBER ROSENBAUM: Fair enough. covering the extension scenario. The extension 11 MR. SCHNEIDER: The second carrier would --11 scenario wouldn't matter. 12 there's a 10-foot minimum -- generally minimum 12 MR. SCHNEIDER: That's correct. So to Mr. 13 separation between carriers. So the second carrier 13 Newlin's point, if the tower was built -- to be 14 14 would have available in the tree design a 70 foot. structurally built to be extendable, and the Board 15 BOARD MEMBER ROSENBAUM: If it's -- could 15 and/or Township did not impose the condition that the 16 they say 70 feet is unacceptable to us? 16 tower not be extendable as a matter of lease rights, 17 MR. SCHNEIDER: Could they? 17 the option would be available to extend the height of 1.8 BOARD MEMBER ROSENBAUM: Yes. 18 the tower "X" feet to accommodate a collocator; does 19 19 MR. SCHNEIDER: They could. And then you'd that make sense? 2.0 CHAIRMAN FLANAGAN: Yes. 20 have -- they would have to file an application saying 2.1 make the case as to why it isn't and go through the 21 BOARD MEMBER ROSENBAUM: Yes. And the 22 same painful process that we have gone through and make 22 flagless flagpole will be similar but it's a 20-foot 23 23 the case as to why a new tower would be justified when difference, is that right? 2.4 70 feet is available. 24 MR. SCHNEIDER: I'm sorry? 25 BOARD MEMBER ROSENBAUM: And for that new 25 BOARD MEMBER ROSENBAUM: And the flagless Page 111 Page 112 1 flagpole is a 20-foot differential between antennas? 1 couple of properties that were left out that I think 2 THE WITNESS: The difference is as Dr. 2 have some significant impacts that are a little closer 3 Eisenstein had commented on, the difference between the 3 than all these photo sims that you've shown us. And 4 flagpole and the tree is that generally on a flagpole 4 one in particular -- actually there's two, right, and 5 each carrier is taking two elevations. So in this case 5 they're there both here: Conine and O'Donnell 6 it would be 80 and 70. So 60 and 50. But whether -- I 6 properties. can't comment on what other carrier's technical needs 7 Is there a reason why we didn't do any 8 8 may be down the road or what other -- you know, I can photo sims of those properties since those are the ones 9 only comment what the available elevations are. 9 we were focused on primarily on the site plan, 55 feet 10 10 BOARD MEMBER ROSENBAUM: Thank you. and 120 feet locations? 11 CHAIRMAN FLANAGAN: But practically 11 Because all these, I agree, you can't see 12 12 speaking, who are the other potential collocators, it. It's down the road, but there's properties that 13 right? 13 are nestled right underneath this tower. 14 BOARD MEMBER ROSENBAUM: T-Mobile and AT&T. 14 THE WITNESS: Well, the post office is 15 CHAIRMAN FLANAGAN: T-Mobile and AT&T. And 15 nestled right underneath the tower, too. The reason I I think AT&T is only on a roof of a firehouse at 16 16 didn't take one at Lot 9.04 was because there was a 45 feet. So I think they'd have a heck of a time 17 17 gate. I took a picture --18 arguing they need a higher elevation than 70 or even 18 MR. O'DONNELL: I'll give you the code. 19 19 60. THE WITNESS: -- from the gate and that's 20 BOARD MEMBER ROSENBAUM: Uh-hum. 20 why I didn't go onto the property. 21 CHAIRMAN FLANAGAN: T-Mobile, who knows, 21 BOARD MEMBER MASELLI: Because a lot of the 22 right, but that leaves you one. 22 mitigation that we're talking about is from the top 23 Anybody else? 23 down. And the more I visit the DPW and stand there 24 BOARD MEMBER MASELLI: Yes. So of all the 24 alone myself and think about alternative ways to do 25 25 properties that you did in the photo sims there is a this to mitigate, the properties that are closer it

Page 113 Page 114 would be helpful that the mitigation actually happened 1 BOARD MEMBER MASELLI: How tall is the 2 from the bottom up as well. We keep talking about 2 fence? 3 3 5-foot diameters, 3-foot piers that the engineer talked MR. SCHNEIDER: Eight. 4 4 THE WITNESS: Eight feet. about, 3- or 4-feet high on the structural concrete 5 pier. Those are pretty significant perspectives when 5 BOARD MEMBER MASELLI: And I didn't see 6 you're talking about only being 55 feet away from 6 anything on the landscape plan as to the type of 7 7 someone's property. vegetation that you're proposing, the heights. Is it a 8 So is there any examples or other projects 8 2-inch caliper? 9 that you worked on where this thing grew out of a shed 9 CHAIRMAN FLANAGAN: They call that the root 10 or something to mitigate the base? Those are some of 10 ball. I don't think they call that the caliper. 11 the things that I'm very concerned about. 11 BOARD MEMBER MASELLI: These are very 12 THE WITNESS: I'm not aware of any --12 helpful. I'd like to see them up close, like what's 13 BOARD MEMBER MASELLI: I'm -- we've got to 13 going on around the compound. How is it -- how are 14 be sensitive to everybody's properties, not just the 14 those two properties that are most impacted, what is 1.5 ones that are three, four, five houses away. So how do 15 that visual? 16 we mitigate the base of these towers other than just 16 THE WITNESS: Yes. Again, I could not get 17 the height? The height is from a further perspective 17 onto the O'Donnell property. And as far as the Conine 18 and I appreciate that. It's a very big improvement, 18 property I just didn't take a picture from there. 19 but I'm concerned about the bottom as well. 19 BOARD MEMBER MASELLI: I think it's pretty 20 THE WITNESS: Again, the base is going to 20 important. 2.1 be fencing and --BOARD MEMBER NEWLIN: Rich, you said before 21 22 BOARD MEMBER MASELLI: But the fence is 22 that you're more than willing to do whatever 2.3 what, 10-feet tall, 8-feet tall? 23 landscaping -- it's not a direct answer to the concern 24 THE WITNESS: -- and plant material. I'm 24 at all, but you said you were willing to do whatever 25 sorry? 25 landscaping the town wanted within commercial --Page 115 Page 116 1 MR. SCHNEIDER: Yes. And I made the 1 public person? All right. If you're not represented 2 additional offer that while I was reluctant of putting 2 by Mr. Simon -- well, ladies first. Fran, come on 3 landscaping on an adjoining property I was willing to 3 4 4 make a reasonable contribution to the Shade Tree MS. FRIGERIO: I apologize if I'm being 5 5 Commission if they wanted to install landscaping on repetitive in questions. 6 another property. 6 CHAIRMAN FLANAGAN: Don't be repetitive. 7 BOARD MEMBER NEWLIN: But there is enough 7 MS. FRIGERIO: I want to say it's a great 8 8 improvement in your photos from what I could see, but room to landscape beyond the town property? 9 MR. SCHNEIDER: Yes. Subject to the DPW's 9 the reduced -- and I'm sure you've answered it. The 10 10 approval installing supplemental landscaping at the reduction of more than 25 feet, what affect is it going 11 11 base is a non-issue. to have on the service? Is it only going to service 12 CHAIRMAN FLANAGAN: One last thing. All 12 Glen Alpin and not Red Gate Road? 13 the cables for these things are proposed to be inside 1.3 CHAIRMAN FLANAGAN: Fran, come closer. 14 the tower, is that right? 14 MS. FRIGERIO: I'm sorry? 15 15 MR. MURAWSKI: Correct. CHAIRMAN FLANAGAN: So to answer that 16 CHAIRMAN FLANAGAN: And that's either the 16 question, right, and we had testimony earlier that 17 tree or the flagless flagpole? 17 you're going to lose service over -- you'll have MR. SCHNEIDER: Correct. 18 18 reduced service at the school. And they showed us 19 19 CHAIRMAN FLANAGAN: All right. Anyone else some -- at Harding Township school. Can you hear me? 20 on the Board have any questions? All right. Do any 20 MS. FRIGERIO: No. What I heard about the 21 21 members of the public? I know there's at least two of school is that the school didn't approach them. 22 22 you have questions. CHAIRMAN FLANAGAN: No, no, no. You asked 23 Oh, I'm sorry, Mr. Simon. 23 will the service be reduced because the tower is lower. 2.4 MR. SIMON: No. They can ask. 24 MS. FRANCES FRIGERIO: Yes. 25 25 CHAIRMAN FLANAGAN: Do you want to do the CHAIRMAN FLANAGAN: The answer is yes. We

	Page 117		Page 118
1	had testimony that we have less service at the school	1	impact. What troubles me, those are great photos. Why
2	and generally speaking there would be less service just	2	not go on the properties, the historic properties on
3	around	3	Millbrook and Conine take a picture from their
4	MS. FRIGERIO: Well, why are we going	4	backyard. I mean, that's they're talking visual
5	through all of this? All right. Next. Why not	5	impact, visual impact. What about the people that have
6	MR. SIMON: I apologize. Is she being	6	lived in this town for so long and then then to say
7	picked up by a mic?	7	the school didn't come to us.
8	CHAIRMAN FLANAGAN: Can you hear me if	8	CHAIRMAN FLANAGAN: All right. So we've
9	you're standing over there?	9	got to ask questions here. And he can't answer your
10	MS. FRIGERIO: I can.	10	question.
11	MR. SIMON: Why don't we do this.	11	So Mr. Masters, why didn't you go on the
12	CHAIRMAN FLANAGAN: There you go.	12	O'Donnell property? I think he answered that and he
13	MS. FRIGERIO: So what you're saying is why	13	said there was a gate, right?
14	not doing it at 80 feet to begin with if it's not going	14	THE WITNESS: There was a gate actually
15	to serve all? I mean, here we are going through years	15	-
16	and we're not going to have full service.	16	MS. FRIGERIO: There is no gate.
17	CHAIRMAN FLANAGAN: Are you saying you want	17	CHAIRMAN FLANAGAN: Mr. O'Donnell just said
18	it taller?	18	there's a gate.
19	MS. FRIGERIO: No. I don't want it at all.	19	MS. FRIGERIO: I'll be good.
20	The point is, how do they come and say we want it	20	CHAIRMAN FLANAGAN: Remember, it's private
21	adjustable? That's like a scam to put it up at 80-foot	21	property, right. So he can't just go walk on anybody's
22	and say oh, we need more for service.	22	property.
23	CHAIRMAN FLANAGAN: So Fran, you've got to	23	MS. FRIGERIO: He can ask permission,
24	ask a question.	24	because that is the biggest issue.
25	MS. FRIGERIO: You keep saying visual	25	CHAIRMAN FLANAGAN: All right. What else
	Page 119		Page 120
1	Page 119 do you want to ask?	1	Page 120 too and what I want to know, I saw the sketch of

2 3 4 5	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those	2 3 4 5	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading
2 3 4 5 6	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the	2 3 4 5 6	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that
2 3 4 5 6 7	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those	2 3 4 5 6 7	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture
2 3 4 5 6 7 8	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.	2 3 4 5 6 7 8	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think
2 3 4 5 6 7 8	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.	2 3 4 5 6 7 8 9 10	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're
2 3 4 5 6 7 8 9	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.	2 3 4 5 6 7 8 9 10 11	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?
2 3 4 5 6 7 8 9 10	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be	2 3 4 5 6 7 8 9 10	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to
2 3 4 5 6 7 8 9 10 11	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?	2 3 4 5 6 7 8 9 10 11 12 13 14	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW
2 3 4 5 6 7 8 9 10 11 12 13 14	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW site.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.  MS. FRIGERIO: See, then this isn't fair.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW site.  MS. FRIGERIO: I saw the site plan, but I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.  MS. FRIGERIO: See, then this isn't fair.  You can't show us photos when they're not real of what	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW site.  MS. FRIGERIO: I saw the site plan, but I don't know how many feet. I didn't see 6 feet by 20,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.  MS. FRIGERIO: See, then this isn't fair.  You can't show us photos when they're not real of what it's actually going to look like. (Applause from	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW site.  MS. FRIGERIO: I saw the site plan, but I don't know how many feet. I didn't see 6 feet by 20, is it
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.  MS. FRIGERIO: See, then this isn't fair. FRIGERIO: I saw the site plan, but I don't know how many feet. I didn't see 6 feet by 20, is it  CHAIRMAN FLANAGAN: Well, what's the size
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.  MS. FRIGERIO: See, then this isn't fair.  You can't show us photos when they're not real of what it's actually going to look like. (Applause from public.)  Is the town really only receiving \$30,000 a year?  CHAIRMAN FLANAGAN: That's not a question.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW site.  MS. FRIGERIO: I saw the site plan, but I don't know how many feet. I didn't see 6 feet by 20, is it  CHAIRMAN FLANAGAN: Well, what's the size of your compound?  MR. SCHNEIDER: 60 by 17.5.  CHAIRMAN FLANAGAN: And what are you fenced
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.  MS. FRIGERIO: See, then this isn't fair.  You can't show us photos when they're not real of what it's actually going to look like. (Applause from public.)  Is the town really only receiving \$30,000 a year?  CHAIRMAN FLANAGAN: That's not a question. So we have got to ask questions from his testimony	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW site.  MS. FRIGERIO: I saw the site plan, but I don't know how many feet. I didn't see 6 feet by 20, is it  CHAIRMAN FLANAGAN: Well, what's the size of your compound?  MR. SCHNEIDER: 60 by 17.5.  CHAIRMAN FLANAGAN: And what are you fenced in on those, same thing?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.  MS. FRIGERIO: See, then this isn't fair.  You can't show us photos when they're not real of what it's actually going to look like. (Applause from public.)  Is the town really only receiving \$30,000 a year?  CHAIRMAN FLANAGAN: That's not a question. So we have got to ask questions from his testimony tonight.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW site.  MS. FRIGERIO: I saw the site plan, but I don't know how many feet. I didn't see 6 feet by 20, is it  CHAIRMAN FLANAGAN: Well, what's the size of your compound?  MR. SCHNEIDER: 60 by 17.5.  CHAIRMAN FLANAGAN: And what are you fenced in on those, same thing?  MR. SCHNEIDER: The revised comment.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	do you want to ask?  MS. FRIGERIO: I'm sorry, because I get emotional when I heard about the extension. Are all the trees in the photos going to remain?  CHAIRMAN FLANAGAN: Are all the trees in the photo. So we had testimony, remember they had the picture there and they had some with Xs on them. Those are going away.  Oh, wait. The photos in these photo sims.  MS. FRIGERIO: What you should have done is "X" off on those photos what trees are going to be there.  CHAIRMAN FLANAGAN: Mr. Masters, are all the trees in your photo sims remaining?  THE WITNESS: No.  MS. FRIGERIO: See, then this isn't fair.  You can't show us photos when they're not real of what it's actually going to look like. (Applause from public.)  Is the town really only receiving \$30,000 a year?  CHAIRMAN FLANAGAN: That's not a question. So we have got to ask questions from his testimony	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	too and what I want to know, I saw the sketch of that rectangle. I would like to see how big is the driveway? What other buildings you I mean, it's not like they're putting up a tree or whatever, a cell tower. It seems like there's a lot of property leading to it, and that we can't see. And in other words, that picture  CHAIRMAN FLANAGAN: So Mr. Simon I think addressed that a little bit. And what I think you're asking for elevations, right?  MS. FRIGERIO: Not elevation. I want to see how big is the area leading to that cell tower?  CHAIRMAN FLANAGAN: Well, we had zoomed in on it, but we had the site plan for the entire DPW site.  MS. FRIGERIO: I saw the site plan, but I don't know how many feet. I didn't see 6 feet by 20, is it  CHAIRMAN FLANAGAN: Well, what's the size of your compound?  MR. SCHNEIDER: 60 by 17.5.  CHAIRMAN FLANAGAN: And what are you fenced in on those, same thing?

	Page 121		Page 122
1	CHAIRMAN FLANAGAN: And it goes basically	1	bottles and cans.
2	the length behind the recycling shed and 17 feet back	2	MS. FRIGERIO: Well, the bottles are here.
3	from it, is that roughly it?	3	BOARD MEMBER ROSENBAUM: Behind the bottles
4	MR. SCHNEIDER: That's correct. 17 and a	4	and cans.
5	half feet.	5	MS. FRIGERIO: Then we're going to see it.
6	CHAIRMAN FLANAGAN: So Fran, it's the	6	If it was back here we wouldn't see it.
7	length of the recycling shed.	7	CHAIRMAN FLANAGAN: It's behind the shed.
8	MS. FRIGERIO: How do they approach how	8	So if you're standing there looking at the dumpsters
9	do you go to the cell tower?	9	where the cans go, their compound is behind the shed.
10	MR. SCHNEIDER: There's an access drive on	10	The only thing I think you're going to be able to see,
11	the side of the recycling shed.	11	and I'm sure, is if you look up you'll see the tower.
12	CHAIRMAN FLANAGAN: So you know where the	12	The shed is pretty tall, right? The shed is 25-feet
13	gate is? Do you know where the gate is when you're	13	tall.
14	going into recycling?	14	MS. FRIGERIO: Right. They are. So it
15	MS. FRIGERIO: Sure.	15	seems to me it's closer to the house on Millbrook than
16	CHAIRMAN FLANAGAN: It's just to the left	16	it is to the Conine house?
17	there. Just inside of the	17	CHAIRMAN FLANAGAN: That's correct.
18	MS. FRIGERIO: So they're going in the same	18	MS. FRIGERIO: But I still think we should
19	driveway and then go left?	19	have
20	CHAIRMAN FLANAGAN: And before you like	20	
21	instead of driving in to the turnaround there's a path	21	CHAIRMAN FLANAGAN: All right. No comments, just questions at this point. Anymore
22	that goes into the recycling.	22	questions? We have other people who want to ask
23	MS. FRIGERIO: And it's going to be behind	23	· ·
24	where we drop-off our newspapers, et cetera?	24	questions.
25	CHAIRMAN FLANAGAN: That's right. The		MS. FRIGERIO: I want to know when you
	Olimida a vi Zarviora v Timos ngua. The	25	said, what disturbed me is why didn't the school come
	Page 123		Page 124
1	to us. Didn't you didn't they approach the church	1	to think about. Maybe we need to say and I don't
2	and the Town Hall? I mean, I may be hearing rumors.	2	know, but that's a question. That is a question.
3	CHAIRMAN FLANAGAN: So the testimony we had	3	MS. FRIGERIO: I think the important thing
4	was Verizon went out to the church and the school and	4	is that the visual impact
5	said, hey, do you want to put this here?	5	CHAIRMAN FLANAGAN: All right. Do you have
6	MS. FRIGERIO: I know the church	6	any more questions?
7	CHAIRMAN FLANAGAN: And the church said no	7	MS. FRIGERIO: I'll be good.
8	thanks.	8	CHAIRMAN FLANAGAN: Mr. O'Donnell?
9	MS. FRIGERIO: I know why the church.	9	MR. O'DONNELL: I'm just speaking on behalf
10	CHAIRMAN FLANAGAN: Okay. Whatever, so	10	of Steve Schade
11	they said no. Both churches, Christ the King as well	11	CHAIRMAN FLANAGAN: You've got to give us
12	said no. Presbyterian said no. And the school wrote a	12	your name into the microphone. This is all being
13	letter and said no.	13	recorded, so
14	MS. FRIGERIO: And the Township Hall?	14	MR. O'DONNELL: Neil O'Donnell, 28
15	CHAIRMAN FLANAGAN: What.	15	Millbrook Road.
16	MS. FRIGERIO: The Town Hall?	16	Steve Schade was here for one reason. The
17	BOARD MEMBER NEWLIN: They said no also.	17	major reason was, we all know Steve. He's been working
18	CHAIRMAN FLANAGAN: They went to those	18	here for 30-plus years, New Vernon Motorworks, and he
19	places.	19	was here to say, I will take the pole at any height
20	BOARD MEMBER NEWLIN: This location, you	20	backing up to 287.
21	mean, right?	21	CHAIRMAN FLANAGAN: All right. Thank you.
22	MS. FRIGERIO: But maybe with a lower	22	Guys, now listen, you've got to do me a
23	tower	23	favor. This is for questions related to the testimony
-			•
24	CHAIRMAN FLANAGAN: Well, that's the point	24	vou just neard, okay?
24 25	CHAIRMAN FLANAGAN: Well, that's the point that George brought up and that's something we've got	24	you just heard, okay?  MS. WADE: I'm not sure where this comes

Page 125 Page 126 from, but -- Leslie Ann Wade, One Village Road. 1 BOARD MEMBER NEWLIN: I think we're going 1 2 My question is, if you guys approve this 2 to discuss this a little bit more. 3 3 are we taking Verizon's word that they're not going MS. WADE: But it's an all right question, 4 4 above 80 feet? Like, is that how we're going to do it? right? 5 Because you guys are all going to be gone some day and 5 BOARD MEMBER NEWLIN: It's a question, but 6 somebody else isn't going to care. I don't know. I'm 6 I think we will discuss it. 7 7 CHAIRMAN FLANAGAN: It's an open question. asking --8 8 CHAIRMAN FLANAGAN: So we've got to -- and Thank you. Does anybody else have a question. And 9 9 we've got to run this according to the rules. This is please can I have a question? 10 10 all by the law, okay. MS. McKITTRICK: This is a question. 11 MS. WADE: Is that not a question? 11 Christina McKittrick, M-c-K-i-t-t-r-i-c-k, Millbrook 12 CHAIRMAN FLANAGAN: The question you asked 12 Road. 13 1.3 CHAIRMAN FLANAGAN: I'm sorry. Are you 14 MS. WADE: The question is, if they say yes 14 represented by Mr. Simon? 15 are they saying yes to taking you at Verizon by -- on 15 MS. McKITTRICK: Not any longer. 16 your word? 16 MR. SIMON: It happens to even the best of MR. MLENAK: Mr. Masters can't answer that. 17 17 attorneys. 18 MR. SCHNEIDER: The answer is, we submit 18 MS. McKITTRICK: Very simple, did you do 19 construction drawings and the Building Department and 19 simulations with the flag monopole? 20 Mr. Fox reviews and confirms that the tower will not 20 THE WITNESS: Well, not with the flag 2.1 2.1 exceed the authorized height. because it was --22 MR. SIMON: That's not what she asked. 22 MS. McKITTRICK: Or with the monopole? 23 MS. WADE: I'm asking, what we've been 23 THE WITNESS: -- the Board had talked about 24 talking about for all these years, all of us, listening 24 a flagless flagpole. Simulations were done from the 2.5 25 eight vantage points of a 120-foot tall flagless Page 127 Page 128 1 THE WITNESS: I'm sorry. Image five. 1 flagpole, and a 100-foot tall flagless flagpole. 2 MS. FRANCES FRIGERIO: But you did not do 2 CHAIRMAN FLANAGAN: Five F? 3 the 80-foot one? Because my understanding we're 3 THE WITNESS: No. Image five which is the 4 4 currently discussing an 80-foot flagless flagpole or photograph of the crane at 146 feet. 5 5 the fake tree? MR. SCHNEIDER: A-28. 6 THE WITNESS: Well, we currently are, but 6 SECRETARY TAGLAIRINO: All right. So where 7 what I was tasked to do what I did I was told to do a 7 am I going with this? 8 8 tree pole, not a flagpole. MR. SCHNEIDER: A-28. 9 MS. McKITTRICK: Thank you. That's all. 9 THE WITNESS: Not the simulation, the 10 THE WITNESS: With the Board's indulgence, 10 photograph. 11 11 I have to correct something on my testimony. If we MR. MLENAK: Five A you said? 12 THE WITNESS: No, five. If we could just 12 could go to image 5F. I didn't realize, because the 13 move down to the title box. The title box, view from original photograph which was Image A identifies it by 13 14 14 backyard of number 7 Lees Hill Road. Number 7 Lees street address. And the title box says, "View from 15 15 backyard of number 7 Lees Hill Road." Hill Road is in fact Lot 55. I didn't realize that the 16 MR. SIMON: Wait. I think he has it wrong. 16 lot extended all the way over to Lees Hill Road. So I 17 Which one are you referring to? 17 did, in fact, take a photograph from the Cornine 18 THE WITNESS: If we go back to image one, 18 property. 19 19 which is the photograph of the crane. CHAIRMAN FLANAGAN: And that is the Conine 20 CHAIRMAN FLANAGAN: All right. Let's go to 20 property. So there you go. So who was asking that, 21 21 Fran? image one. 22 2.2 MR. SCHNEIDER: Well, Mr. Maselli. MR. MLENAK: Are you talking about A-32 or 23 23 BOARD MEMBER MASELLI: But not O'Donnell? are you talking about A-29? 24 MR. SCHNEIDER: Calm down here, Rob. We'll 24 THE WITNESS: Correct. 25 25 get to it. CHAIRMAN FLANAGAN: But in fairness, he did

1 2	Page 129		Page 130
2	it from and I forget your name, I'm sorry. Who's	1	that the Conine property is 7 Lees Hill. It's Tax Lot
	your neighbor? No, on the same driveway as you?	2	55; is that right? And it was taken from Copper Tree
3	MR. O'DONNELL: Livio.	3	Lane with the photographer's back finish that
4	CHAIRMAN FLANAGAN: So there is one from	4	sentence.
5	there.	5	MR. CARIFA: He's facing the DPW.
6	MR. FOX: Just to go back to this. If we	6	CHAIRMAN FLANAGAN: The photographer's
7	look at 5F, that's labeled as 8 Millbrook, the same	7	facing the DPW.
8	view.	8	Do we need someone sworn in to say that?
9	THE WITNESS: Five F.	9	Is that correct, Mr. Masters?
10	MR. FOX: That same view is listed as	10	THE WITNESS: It was taken from the
11	THE WITNESS: Eight Millbrook is the	11	backyard of 55 Lees Hill Road.
12	address of the property, the DPW yard.	12	CHAIRMAN FLANAGAN: Lot 55 or 55?
13	CHAIRMAN FLANAGAN: View of proposed with	13	THE WITNESS: I'm sorry. Lot 55, 7 Lees
14	proposed wireless communication.	14	Hill Road.
15	THE WITNESS: The title block in the	15	CHAIRMAN FLANAGAN: Okay. Is that it? Mr.
16	left-hand side is the same in every image.	16	Simon? So Mr. Simon, would you like to ask any
17	MR. FOX: Okay.	17	questions of the witness?
18	CHAIRMAN FLANAGAN: All right. Corrected.	18	MR. SIMON: I have one or two. I do have a
19	BOARD MEMBER ADDONIZIO: But the middle box	19	while of questions. Do you want me to start?
20	is not the same. So view with proposed versus	20	CHAIRMAN FLANAGAN: I'd like you to finish.
21	MR. CARIFA: That's my property, 7 Lees	21	(Laughter)
22	Hill Road. That's the photographer's back.	22	EXAMINATION BY MR. SIMON:
23	BOARD MEMBER SYMONDS: But it's taken from	23	Q. Mr. Masters, good evening.
24	Copper Tree Lane, correct?	24	A. Good evening.
25	CHAIRMAN FLANAGAN: So what I just heard is	25	Q. Mr. Masters, do you recall ever being
	Page 131		Page 132
1	involved in applications where in an attempt to meet	1	questioning by me, I'm not going to take any credit for
2	the third prong of the negative criteria under the Sica	2	it, but by members of the Board stated that 80 feet
3	balancing test that the Applicant reduce the height of	3	would not work for this application, correct?
4	the tower?	1 .	
4		4	A. I was.
5	A. I've been involved in so many of them.	5	<ul><li>A. I was.</li><li>Q. And you also recall exhibits that Ms.</li></ul>
	<ul><li>A. I've been involved in so many of them.</li><li>Q. I know you have. That's why I'm asking the</li></ul>

And you also recall exhibits that Ms.  Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do.
5 6 7 8 9 10 11	<ul> <li>Q. I know you have. That's why I'm asking the question.</li> <li>A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.</li> <li>Q. So how many use variance applications have you been involved with on behalf of a commercial</li> </ul>	5 6 7 8 9 10 11	Q. And you also recall exhibits that Ms.  Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do.  Q. And I believe it was asked, but just for
5 6 7 8 9 10 11 12 13	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed,	5 6 7 8 9 10 11 12 13	Q. And you also recall exhibits that Ms.  Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do.  Q. And I believe it was asked, but just for clarification that there's almost no coverage at
5 6 7 8 9 10 11 12 13 14	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?	5 6 7 8 9 10 11 12 13 14	Q. And you also recall exhibits that Ms.  Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do.  Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?
5 6 7 8 9 10 11 12 13 14	<ul> <li>Q. I know you have. That's why I'm asking the question.</li> <li>A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.</li> <li>Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?</li> <li>A. Many hundreds.</li> </ul>	5 6 7 8 9 10 11 12 13 14	Q. And you also recall exhibits that Ms.  Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do.  Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth.
5 6 7 8 9 10 11 12 13 14 15	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of	5 6 7 8 9 10 11 12 13 14 15 16	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do. Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth. Q. What's that?
5 6 7 8 9 10 11 12 13 14 15 16	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of one where the Applicant in meeting the third prong of	5 6 7 8 9 10 11 12 13 14 15 16	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do. Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth. Q. What's that? A. At the 2100 bandwidth.
5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of one where the Applicant in meeting the third prong of the Sica Balancing Test reduced the height of the	5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do. Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth. Q. What's that? A. At the 2100 bandwidth. Q. And that there's no coverage at 80 feet for
5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of one where the Applicant in meeting the third prong of the Sica Balancing Test reduced the height of the tower?	5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do.  Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth.  Q. What's that?  A. At the 2100 bandwidth.  Q. And that there's no coverage at 80 feet for 2100 megahertz at the elementary school; correct?
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of one where the Applicant in meeting the third prong of the Sica Balancing Test reduced the height of the tower?  A. Again, I can't think of any right now off	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do.  Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth.  Q. What's that?  A. At the 2100 bandwidth.  Q. And that there's no coverage at 80 feet for 2100 megahertz at the elementary school; correct?  A. Correct.
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of one where the Applicant in meeting the third prong of the Sica Balancing Test reduced the height of the tower?  A. Again, I can't think of any right now off the top of my head.	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do. Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth. Q. What's that? A. At the 2100 bandwidth. Q. And that there's no coverage at 80 feet for 2100 megahertz at the elementary school; correct? A. Correct. Q. Do you recall her testimony about the homes
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of one where the Applicant in meeting the third prong of the Sica Balancing Test reduced the height of the tower?  A. Again, I can't think of any right now off the top of my head.  Q. And you were present for to your	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do. Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth. Q. What's that? A. At the 2100 bandwidth. Q. And that there's no coverage at 80 feet for 2100 megahertz at the elementary school; correct? A. Correct. Q. Do you recall her testimony about the homes that would not be covered at 80 feet?
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of one where the Applicant in meeting the third prong of the Sica Balancing Test reduced the height of the tower?  A. Again, I can't think of any right now off the top of my head.  Q. And you were present for to your credit for Ms. Boschulte's testimony; correct?	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do.  Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth.  Q. What's that?  A. At the 2100 bandwidth.  Q. And that there's no coverage at 80 feet for 2100 megahertz at the elementary school; correct?  A. Correct.  Q. Do you recall her testimony about the homes that would not be covered at 80 feet?  A. The home that would not be covered?
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. I know you have. That's why I'm asking the question.  A. It's hard to remember. I'm sure there probably will are. I cannot think of any off the top of my head.  Q. So how many use variance applications have you been involved with on behalf of a commercial carrier where the Sica balancing test was employed, approximately?  A. Many hundreds.  Q. So in the many hundreds you can't think of one where the Applicant in meeting the third prong of the Sica Balancing Test reduced the height of the tower?  A. Again, I can't think of any right now off the top of my head.  Q. And you were present for to your	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. And you also recall exhibits that Ms. Boschulte entered into, or testified about where at 80 feet that most of the signal strength was at a power that was greater than, significantly greater than desired signal strength for this application; do you recall that?  A. I do. Q. And I believe it was asked, but just for clarification that there's almost no coverage at 2100 megahertz at 80 feet; correct?  A. Right. At the higher bandwidth. Q. What's that? A. At the 2100 bandwidth. Q. And that there's no coverage at 80 feet for 2100 megahertz at the elementary school; correct? A. Correct. Q. Do you recall her testimony about the homes that would not be covered at 80 feet?

Page 134 Page 133 1 drove test a tower at 70 feet or 60 feet does that megahertz? 1 2 A. I don't remember that. 2 refresh your recollection as to her testimony? 3 3 Q. Do you recall her testimony about the A. Yes. I'm pretty certain that there were no 4 4 coverage that would be lost going from 120 feet to propagations done at those heights. 5 80 feet along Glen Alpin, Blue Mill Road, Lees Hill 5 Q. So she did no evaluation at the differences 6 Road, Village Road, Millbrook Road? 6 between 80 feet, 70 feet, and 60 feet; correct? 7 7 A. I remember the comparisons at the lower A. Correct. 8 8 Q. And we don't know whether any carriers heights of the coverages. 9 Q. Do you remember what they were 9 would be locating -- interested in collocating at 70 10 specifically? 10 feet; correct? 11 A. Not with any specific detail. 11 A. We do not. 12 Q. And you recall that when I actually -- I 12 Q. And is it correct for me to state that if 13 13 asked the question about if you had the tower at there were a scenario where the height of the tower 14 80 feet could the coverage from that tower be 14 would subsequently be increased from the proposed 1.5 supplemented by an ODAS design similar to one that was 15 mitigating condition of 80 feet or 86 feet, as the case 16 employed that she worked on in Bernardsville, and she 16 may be, that Verizon's agreement with the carrier --17 17 actually said no; do you recall that? only if you know this answer -- would require that 18 A. I do. 18 Verizon be the top carrier at the highest; if you know? 19 19 MR. SCHNEIDER: Do you know that answer? Q. And do you recall that I asked her what the 20 coverage would be below 80 feet if the tower was 20 THE WITNESS: I don't know the answer to 21 reduced to something less than 80 feet, and she did not 21 that. 22 know; correct? 22 BY MR. SIMON: 23 A. I don't recall. 23 Q. And there was a reference that AT&T has 24 Q. So if I told you that her testimony was 24 antenna at the roof of the firehouse at 45 feet, are 25 that she neither propagated, neither propagated nor 25 you aware of that? Page 135 Page 136 At the New Vernon firehouse. 1 80 feet, and there was testimony by various members of 1 2 At the new Vernon Firehouse? 2 the public that at 45 feet at the roof of the firehouse 3 A. I am aware of that. 3 that they have fine coverage. So I was just asking Mr. 4 4 Are you aware of that? Masters --5 5 MR. SCHNEIDER: What's the relevance of A. I am. 6 Q. Were you present for the testimony from the 6 anything below 80 feet? 7 various members of the public who do use AT&T as their 7 MR. MLENAK: I'm trying to understand the 8 8 connection with the 45 feet. service provider and that they have --9 MR. SCHNEIDER: Mr. Chairman, I'm going to 9 MR. SIMON: The relevance is that there 10 10 object to this. I'm not clear why that's relevant to could be a height that's even lower than 80 feet that 11 would provide for adequate coverage and further 11 the proffered testimony. 12 12 mitigate any detrimental impact, but it hasn't been MR. SIMON: Well, the reason is that we're 13 studied, it hasn't been looked at, it hasn't been 13 talking about the coverage. 14 MR. SCHNEIDER: Well, Mr. Masters is not 14 designed, it hasn't been proposed. 15 MR. MLENAK: I think you can it just like 15 talking about the coverage. 16 MR. SIMON: Well, excuse me. Let me 16 that without referencing AT&T? 17 proffer it. 17 THE WITNESS: I'm not aware of any testing 18 18 at those lower heights. Mr. Masters gave an opinion tonight about 19 the Sica Balancing Test, balancing the positive 19 CHAIRMAN FLANAGAN: Mr. Simon, can I ask a 20 criteria and the negative criteria, and I believe it 20 question? And I don't want to interrupt. 21 MR. SIMON: You're in charge. 21 was actually Mr. Mlenak who asked the question about 22 22 CHAIRMAN FLANAGAN: And I try to follow balancing as is required under Sica take into account 23 23 where you're going with these questions. I want to the positive aspects of the coverage. And so my 24 questioning here is going to that aspect and the fact 24 understand it because you brought up many good points. 25 25 that no propagation or drive testing was done below So you just went through Ms. Boschulte's

Page 137 Page 138 prior testimony that she testified -- I'm taking your 1 80 feet. And I asked the question does this cover your 2 word for it, I'm sure it's correct -- that below 2 need? And the answer was, it's not as good as 120 but 3 3 80 feet there was no coverage. it works. I mean, that's a fact. So I want to 4 MR. SIMON: No. No. That's not fair. She 4 understand where you're going. What was your point? 5 didn't look at it. She didn't study below 80 feet. 5 Are you saying we should question the 6 She didn't say, I don't recall her saying that there's 6 testimony of Ms. Boschulte, or where are we going with 7 7 no coverage below 80 feet. this? Where are we going with saying, hey, she said at 8 8 80 feet it doesn't work. I'm pretty sure you weren't CHAIRMAN FLANAGAN: Well, you just went 9 through and you, I think, quoted her --9 suggesting they look for a taller tower. 10 MR. SIMON: She said 80 feet will not work. 10 MR. SIMON: The Applicant has a burden of 11 We need 120 feet, that's correct. 11 proof and they need to meet the positive criteria and 12 CHAIRMAN FLANAGAN: So she said it just 12 negative criteria. My questions are going to that 13 13 doesn't work below 80 feet? burden of proof. And the fact that you have a radio 14 MR. SIMON: At 80 feet. 14 frequency expert that says at 80 feet is not good 1.5 CHAIRMAN FLANAGAN: Oh, at 80 feet? 15 enough, we need 120, right. That now Mr. Masters in 16 MR. SIMON: At 80 feet. 16 analyzing that positive criteria and the negative MR. SCHNEIDER: What exhibit -- let's --17 17 criteria is saying that on balance that the application 18 the record speaks for itself. I would just refer the 18 should be approved at, I guess, at 86 feet and I think 19 Board to Exhibit A-21, which sets forth, and I don't 19 that's whatever, I'll get to that later. 20 think we need to spend 20 minutes on it. 20 But the point being is that he's basing --2.1 Exhibit A-21 provides a detailed analysis 21 he's doing his balancing test in part, in fairness, 22 of the coverage at 80, 100, and 120, and what areas are 22 based on testimony from the Applicant's radio frequency 23 covered. 23 expert that says that 80 feet is not good enough. 24 CHAIRMAN FLANAGAN: So I'm going to say we 24 MR. SCHNEIDER: That's Mr. Simon's 25 25 now have the Applicant and they showed us an RF quad at characterization of her testimony. A-21 details what Page 139 Page 140 1 the coverage is at 80 feet. I don't know why we have 1 A. Correct. Q. You haven't taken any additional photos 2 to go through this again through Mr. Masters. 2 3 MR. SIMON: But Mr. Masters is not -- he 3 that you've submitted to the Board in connection with 4 4 didn't provide the radio frequency test. I understand this application for the past four years, 48 months; 5 5 correct? A-21 speaks for itself. 6 MR. SCHNEIDER: That's correct. He didn't 6 A. Correct. 7 provide the RF testimony. 7 Q. And the photo simulations that you 8 MR. SIMON: And I think I asked actually 8 presented this evening did you do them yourself? 9 many, many months ago to Mr. Masters about his review 9 A. I have someone who assists me with them. 10 of the radio frequency testimony in doing the Sica 10 Q. Is that person who assists you with it, are 11 Balancing Test and he said he relied on Ms. Boschulte. 11 they here tonight? 12 CHAIRMAN FLANAGAN: So let's move on. My 12 They are not. 13 Q. And when you say "The person --" "You have point -- my question, not my point, but my question 13 14 was, I want to understand what you're saying but we 14 a person assisting you," are they the one who's doing 15 have the Applicant saying it does something better than 15 the computer programming for this that you refer to? 16 nothing. It would be better at taller height and they 16 17 showed us a plot that said this is what it looks like 17 Q. And the person who assisted you doing the 18 at 80 feet. We have testimony saying it doesn't cover 18 computer programming are they part of your office? 19 the school, but-- all right. Go ahead. 19 A. He's a subcontractor. 20 And I'm sorry guys. Mosquitos are starting 20 Q. He's a subcontractor. So your office is 21 to come in. I really think you ought to shut the 21 located where? windows. Anyway, go ahead. 22 22 A. 19 Iron Wood Drive, Morris plains. 23 BY MR. SIMON: 23 Q. And the subcontractor that you had 24 Q. Mr. Masters, these photos that were taken 24 performing this photo simulation, who is that person 25 over four years ago, you took these photos; correct? 25 and entity?

	Page 141		Page 142
1	A. Michael Beradesco.	1	this for well, for me for the past 25 years.
2	Q. Can you please spell his last name?	2	Q. But you don't know what type of training or
3	A. B-e-r-a-d-e-s-c-o.	3	education he has?
4	Q. And is he a solo practitioner or does he	4	A. I don't know what his educational
5	work with a company?	5	background is.
6	A. He's a solo practitioner.	6	Q. And you weren't present when he did the
7	Q. And where is his office?	7	computer programming to create these photo simulations,
8	A. His office is in Blairstown.	8	including the one this evening; correct?
9	Q. And has he ever testified before this Board	9	A. Correct.
10	in connection with this application?	10	Q. So you don't know what buttons he pushed,
11	MR. SCHNEIDER: Mr. Simon knows the answer	11	what programs he inserted to come up with the photo
12	to that. I mean, come on.	12	simulations that we're seeing this evening; correct?
13	MR. SIMON: I'm making a record, Mr.	13	A. Correct.
14	Schneider.	14	Q. And you don't know how he superimposes the
15	MR. SCHNEIDER: I think the Board knows	15	fake tree behind the other trees as I think it was Mr.
16	whether Mr. Beradesco appeared.	16	Symonds asked you?
17	MR. SIMON: Mr. Schneider, this is a yes or	17	A. I do. I mean, he uses the
18	no question.	18	Q. The software; right?
19	BOARD MEMBER NEWLIN: Let's keep going.	19	A. The software.
20	THE WITNESS: Correct.	20	Q. But you don't know how he does that;
21	BY MR. SIMON:	21	correct?
22	Q. And do you know what type of expertise	22	A. No.
23	what type of training and expertise Mr. Beradesco has	23	Q. And so the crane test that you're relying
24	in creating these photo simulations?	24	on, and I apologize, is which? Because we've had a
25	A. He's a graphic artist. He's been doing	25	whole bunch of crane test.
	Page 143		Page 144
1	Which crane test is it that you believe he	1	A. I don't recall. I honestly don't recall.
2	did these photo simulations based on?	2	Q. And do you know whether members of the
3	A. The crane test was the original crane test	3	public provided the opportunity for members of the
4	that was done back on February the 27, 2018.	4	Board and members of the public to go on to their
5	Q. And were you present at the site visit the	5	properties?
6	Board took?	6 7	A. Well, I wouldn't have known that because I wasn't there.
7 8	A. What day was that? Because the Board was at the crane.	8	
		9	Q. Did you have that in advance by being present during the discussion about that site visit? I
9 10	Q. I remember I got a huge bee bite on my cheek. But other than that	10	think you were before this Board.
11	A. There were several Board members present at	11	A. I may have been, but I don't recall.
12	the crane test on February 27, 2018. But I have not	12	Q. But you chose not to attend even though you
13	been in any subsequent crane tests.	13	were aware that people in the public provided an
14	Q. July 10th, of 2021?	14	opportunity for members of the public and the Board to
15	MR. SCHNEIDER: Just so we're clear, Mr.	15	go on to their property?
16	Masters is referring to a crane test, I believe, prior	16	CHAIRMAN FLANAGAN: Can I ask a question?
17	to the application being submitted. There was then a	17	A. I was not present at that site visit.
18	site inspection right when the application was filed.	18	CHAIRMAN FLANAGAN: Regarding the site
19	And then there was the subsequent one that was just	19	visit, is that really related to new testimony we had
20	referred to in July.	20	tonight? We've covered this at previous
21	BY MR. SIMON:	21	MR. SIMON: It is, because he has shown the
22	Q. Okay. Were you present for the July site	22	same photos from the same locations for four years.
23	inspection?	23	And that is
24	A. No.	24	CHAIRMAN FLANAGAN: All right. So you're
25	Q. Were you aware of it?	25	getting at the fact that he showed photos today.

Page 145 Page 146 You're establishing something about the particular 1 MR. SCHNEIDER: But he set the foundation 2 photos that were shown tonight? 2 -- come on. He set the foundation when he testified 3 3 MR. SIMON: Mr. Flanagan, I'm establishing the first time as to where he took them from, why he 4 4 the fact that he's relying on the same eight photos for took them from, and why he took them from those vantage 5 four years and he had ample opportunity to take photos 5 points. 6 at various times from other locations, including from 6 He testified tonight that the photo sims on 7 7 other locations within the Historic District from the exhibit presented tonight was based on the original 8 8 crane test. So why do we have to rehash why he took locations immediately adjacent to this property even on 9 9 private property. them from the original one? 10 10 CHAIRMAN FLANAGAN: So I've got to say, I CHAIRMAN FLANAGAN: And I would say, in my 11 view there's photos from 360 degrees around this. Now, 11 agree with Mr. Schneider. 12 whether it was taken on Mr. O'Donnell's property, or 12 MR. MLENAK: I agree with Mr. Schneider. 13 his neighbor's which is right next to him, it was in 13 The Board did not let Mr. Schneider ask questions that 14 14 fact taken from Conine as well, how many more photos do were outside of the scope of what was intended to be 1.5 you want, right? But anyway, go ahead. 15 testified to. And I think the scope of 16 BY MR. SIMON: 16 cross-examination should be limited. We have heard, 17 Q. Mr. Masters, how do you determine to take 17 almost stipulated to the fact that these are the same 18 the photo from a particular location, for example, on 18 photos. 19 19 MR. SIMON: But I can't ask why he didn't the Conine property, as opposed to taking it from a 2.0 location that's closer to the tower? 20 take any additional photos? 2.1 MR. SCHNEIDER: That was testified when he 21 MR. MLENAK: That's not what you're asking. 22 did the original photo sims. We're now not going --22 You just asked him --23 we're going back to what he testified to in March of 23 MR. SIMON: Well, right. I asked him why 24 24 didn't he take photos from different vantage points. 2.5 25 MR. SIMON: Mr. Schneider, he's presenting. BY MR. SIMON: Page 147 Page 148 Q. My next question is, why didn't you take 1 Q. Mr. Masters, have you been to the property? 1 2 2 additional photos other than just relying on these When is the last time you were at these locations? 3 eight photos for four years? 3 A. At these locations, well, certainly over a 4 4 A. Because I think the eight photographs that year ago. 5 5 I took, six of which were within the New Vernon Q. Can you be more specific? 6 Historic District or on the boundary of the Historic 6 A. No, I really can't. I've been there 7 District, were sufficient to establish the viewshed of 7 various times to the DPW yard, but it's been -- I think 8 8 I testified last in March, April, and May of 2021. And where this crane would be visible from. I mean, we can 9 9 I can tell you that I have not been back to the DPW go through these. We've got eight photographs. Let's 10 go back to the --10 yard or any of these vantage points since that time. 11 Q. And so you're not aware of whether the 11 Q. Mr. Masters, I'm not asking you to go back 12 12 through the eight photo. trees that are depicted on your photographs from four 13 years ago are in the same condition today; correct? A. No. You're asking a question about why I 13 14 14 didn't take them closer, and I want to reiterate where A. Correct. 15 I took them from, what the distances were from. 15 Q. And the rendering that you provided tonight 16 Q. You already testified to that. 16 at 86 feet that only depicts one carrier; correct? 17 A. And whether they were within the New Vernon 17 A. Correct. 18 18 Q. And you have not -- have you looked at the Historic District. 19 Q. You already testified to that. I'm not 19 elevations or the site plan of the towers that you 20 20 photographed to show examples, which I don't remember, asking --21 21 A. But you're asking me the question again so was that A-33, I think? 22 22 I'll re-testify to it. A. When you say "elevations"? 23 MR. SCHNEIDER: Or withdraw the question 23 Q. Yes. Have you seen site plans elevations, 24 then, Rob. 24 the diameter of those trees, where the branches are? 25

25

BY MR. SIMON:

A. I've not looked at any elevations. I was

Page 149 Page 150 1 asked to go photograph three tree poles to present to 1 Q. But that tree doesn't currently correspond 2 the Board. One of which I believe had been suggested 2 to what's being proposed on the engineer site plan; 3 3 by one of the Board members, that was the one off of correct? 4 4 Route 78 in Clinton Township. A. No. 5 The other two I just felt were 5 Q. And the flagless flagpole you do show at a 6 representative, one of which was again the pole that 6 hundred feet, but you don't show at 80 feet; correct? 7 7 has been being used kind of as a prototype for the A. I showed it at 120 feet and a hundred feet 8 branching habit of the photo simulations. And another 8 but not at 80 feet. 9 Verizon tree pole that I was aware of in Lafayette 9 Q. And you -- just to clarify that none of 10 10 Township. your visual impact studies, including the one that you 11 Q. How do you know that the -- so you used the 11 submitted tonight, reflect trees that will be removed 12 DelBarton pole for this simulation? 12 in connection with this application; correct? 13 13 A. The general branching habit of the That is correct. 14 DelBarton pole. 14 Q. And they also don't reflect trees that will 1.5 Q. So when you told Mr. Beradesco did you give 15 be removed in connection with this application if there 16 that information to him? 16 was a collocator on this site; correct? A. I did. 17 17 A. Correct. Nor do they reflect proposed 18 Q. And what did you tell him? 18 vegetation that's being proposed in conjunction with 19 19 A. I told him to use that pole as a prototype. the site plan application. 20 And how do you know that can be replicated? 20 Q. Would you be able to see the proposed 21 A. I don't have any direct knowledge that it 21 landscaping in connection with this application from 22 can be replicated, but if that were a condition of 22 any of your photo sim locations? 23 the -- of the Board that it be replicated then I 23 A. Possibly in the Wintertime. In most cases, 24 suppose the Applicant would have to figure out a way to 24 not. 25 get it replicated. 25 Q. And I assume that still don't -- you don't Page 151 Page 152 know based on the most current site plan that was 1 Q. Right. But it's getting also closer to the 1 2 submitted and the trees that were slated to be removed 2 post office; correct? 3 what the heights of those trees are; correct? 3 A. Yeah. It's getting closer to where it was 4 4 originally proposed at the time the DPW was considering A. Correct. 5 5 a salt dome at the facility. And it was subsequently Q. And you don't know how fast that 6 landscaping is going to be grown, right? You don't 6 repositioned to accommodate that salt dome, which 7 know that answer? 7 apparently the changes or the proposal for the salt 8 8 dome changed because it's no longer proposed in that A. I don't. 9 9 location. Q. And you also don't know anything about 10 CHAIRMAN FLANAGAN: Mr. Simon, before you 10 whether any of the trees are dead, diseased, dying, anything like that; correct? 11 go on, do you have many more questions? 11 12 MR. SIMON: I do. 12 A. No, I don't. 13 13 CHAIRMAN FLANAGAN: Okay. So it's 10:30. Q. And still in connection with the most 14 14 I promised we'd go an extra ten minutes because we recent photo simulation that you're proposing this 15 started ten minutes late, but we do need to talk about 15 evening there's no proposal that a conservation 16 easement will be proposed for any tree depicted in your 16 the next meeting. 17 visual impact study; right? 17 MR. SCHNEIDER: How much more time does Mr. 18 18 A. No. I'm not proposing any conservation Simon have? I mean, I'd hate to have to bring Mr. 19 Masters back for 10 minutes. 19 easements. 20 Q. Now, you know, we talked earlier this 20 CHAIRMAN FLANAGAN: How much more time does 21 21 Mr. Simon have? evening, or there was testimony about the location 22 MR. SIMON: Twenty or 30 minutes. 22 being shifted around 18 feet here or there; correct? 23 23 CHAIRMAN FLANAGAN: Okay. Twenty or 30 A. Well, it was shifted in conjunction to two 24 properties. The one property it was shifted almost 26 24 minutes is more than I'm going to be able to keep 25 everybody here, so I apologize but I think he's going 25 feet.

to have to come back.  1 CHAIRMAN FLANAGAN: And Mr. Steel  2 MR. SCHNEIDER: I'm sorry. I didn't hear.  3 CHAIRMAN FLANAGAN: I said I'm sorry but I  4 think Mr. Masters is going to have to come back. So  5 let's talk about when that's going to happen.  6 Lori, our next meeting is when, regular  1 CHAIRMAN FLANAGAN: And Mr. Steel  2 MR. SIMON: to present testimony.  3 CHAIRMAN FLANAGAN: So we're not g  4 finish it up tonight.  5 BOARD MEMBER ROSENBAUM: And  6 another round of comments?	
3 CHAIRMAN FLANAGAN: I said I'm sorry but I 4 think Mr. Masters is going to have to come back. So 5 let's talk about when that's going to happen. 5 CHAIRMAN FLANAGAN: So we're not go 4 finish it up tonight. 5 BOARD MEMBER ROSENBAUM: And	
<ul> <li>think Mr. Masters is going to have to come back. So</li> <li>let's talk about when that's going to happen.</li> <li>BOARD MEMBER ROSENBAUM: And</li> </ul>	
<ul> <li>think Mr. Masters is going to have to come back. So</li> <li>let's talk about when that's going to happen.</li> <li>BOARD MEMBER ROSENBAUM: And</li> </ul>	oing to
6 Lori, our next meeting is when, regular 6 another round of comments?	do we have
7 meeting? 7 MR. MLENAK: We do again subject to be	ing
8 MR. MLENAK: Mr. Chairman, you recall last 8 limited to what additional information has been	
9 time I may have mentioned and I think Mr. Simon also 9 testified to and presented as evidence since the last	
10 has a conflict on the night 10 public comment.	
11 CHAIRMAN FLANAGAN: And that was going to 11 BOARD MEMBER NEWLIN: Questions of	or public
12 be on the 21st; right? 12 comment?	
13 SECRETARY TAGLAIRINO: Yes. 13 MR. MLENAK: Well, questions of Mr.	
14 CHAIRMAN FLANAGAN: So we're "O for three" 14 Masters, certainly questions of Mr. Steck, and then	
15 or where are we? We're "O for two" on those. 15 public comment.	
16 So what are we going to do then? 16 MR. SCHNEIDER: Public has completed 1	Mr.
17 MR. SIMON: Is April 13th 17 Masters.	
18 BOARD MEMBER MASELLI: Let's go till one 18 CHAIRMAN FLANAGAN: So someone s	aid
19 o'clock. Let's go. 19 something about the 13th. I can tell you I am out the	at
20 CHAIRMAN FLANAGAN: 1:00 a.m.? I think 20 week of	
21 you're going to lose honestly, I think we're going 21 SECRETARY TAGLAIRINO: There's the	Board of
22 to lose not only do we have to hear the rest of Mr. 22 Health.	
23 Simon's questioning, but I think we have some 23 CHAIRMAN FLANAGAN: Well, let me a	sk. We
24 deliberations to do. 24 can do this at a regular meeting oh, I'm sorry.	
25 MR. SIMON: And then I have Mr. Steck – 25 Well, the option is either to do a Special Meeting,	
Page 155 Page	ge 156
1 which I've asked a lot of a lot of people to do Special 1 BOARD MEMBER ROSENBAUM: I proba	bly have a
2 Meetings. If you say no I understand, or if we don't 2 conference.	
3 want to do a Special Meeting it's got to go to May 3 SECRETARY TAGLAIRINO: So that week	between
4 19th. 4 the 10th and the 16th there are three other meetings	at
5 So are people willing to do a Special 5 that are going on.	
6 Meeting, is the first question. Is anyone opposed to 6 CHAIRMAN FLANAGAN: I can't do that	so
7 doing a Special Meeting? 7 it's Spring Break.	
8 BOARD MEMBER NEWLIN: How busy is the 8 SECRETARY TAGLAIRINO: So then the 2	5th is
9 Regular Meeting? 9 the Planning Board. So you could do the 26th or 27	th
10 SECRETARY TAGLAIRINO: Well, we have one, 10 if you can't do the 28th.	
11 two, three, four for sure. 11 CHAIRMAN FLANAGAN: Aric, so does the	e 27th
12 CHAIRMAN FLANAGAN: Four applications for 12 work?	
13 April? 13 MR. SCHNEIDER: Will the 27th work?	
14 SECRETARY TAGLAIRINO: And there's like 14 CHAIRMAN FLANAGAN: Yes, it does. The second seco	ne
three or four more sitting in the wings. 15 27th, is there a conflict for anyone on the 27th?	
16 CHAIRMAN FLANAGAN: So in two-month's time 16 MR. SCHNEIDER: It works for me.	
17 who knows how many we're going to have, I guess is the 17 MR. SIMON: I have another hearing.	
18 answer. We have no way of knowing right now. 18 CHAIRMAN FLANAGAN: So Mr. Simon of	an't do
19 So is anyone opposed to a Special Meeting? 19 the 27th.	
20 Tom says he's not opposed. Alf is not opposed. I'm 20 BOARD MEMBER SOVOLOS: There was	another
21 not opposed. 21 meeting that we moved because of the Centennial

	alk
23 great because we have Spring Break. 23 CHAIRMAN FLANAGAN: Okay. So let's t	
23 great because we have Spring Break. 24 CHAIRMAN FLANAGAN: What about the 28th for 25 you, Elizabeth? Aric, you can't you do the 28th? 26 CHAIRMAN FLANAGAN: Okay. So let's to the week of	

Page 157 Page 158 1 BOARD MEMBER MASELLI: I am all the time. 1 and Mr. Steck are both available on May 3rd. 2 MR. MLENAK: Do you want to meet on the 2 MR. SCHNEIDER: The following week, does 3 3 20th? That's two days in a row. the following week create a problem? 4 BOARD MEMBER ADDONIZIO: I'm out the week 4 SECRETARY TAGLAIRINO: The following week, 5 of the 18th, that Easter week. 5 that whole week is always full of other Boards. 6 CHAIRMAN FLANAGAN: So we can't do the week 6 CHAIRMAN FLANAGAN: Can we do May 9th? 7 7 of the 11th. We can't do the week of the 18th. The MR. MLENAK: What about the 2nd? 8 8 week of the 25th it sounds like Mr. Simon's got a MR. SCHNEIDER: The 2nd is the one day that 9 9 conflict. Let's go through every day on the week of I cannot. 10 10 SECRETARY TAGLAIRINO: May 3rd is okay. the 25th. Does anybody have a problem with --11 MR. SIMON: Wait, wait -- I'm sorry. I 11 CHAIRMAN FLANAGAN: May 3rd does not work 12 12 for me. apologize. In April? 13 MR. SIMON: Is there a way, with enough 13 MR. MLENAK: Go on May 3rd, because I heard 14 notice, because we're at the end of March, that May 14 that was a good date for the Board. 15 9th, that maybe one of the meetings on May 9th, 10th 1.5 MR. SIMON: I know that Mr. Steck and I are 16 and 11th can be moved? 16 both available on May 3rd, and on May 9th, and on May 17 SECRETARY TAGLAIRINO: Well, I think May 17 10th, and May 11th. 18 9th could be -- I have to see when the Township 18 MR. SCHNEIDER: Why don't we do May 3rd? 19 Committee meets. 19 CHAIRMAN FLANAGAN: How about May the 4th? 20 BOARD MEMBER BOYAN: That is the 9th. 2.0 SECRETARY TAGLAIRINO: No. We can't do May CHAIRMAN FLANAGAN: They'd understand. 21 2.1 the 4th. 22 They're the ones that sent us this application. 22 CHAIRMAN FLANAGAN: May 5th? 23 SECRETARY TAGLAIRINO: I'm going to shut SECRETARY TAGLAIRINO: May 5th is HPC. 23 24 this stuff down. I have to look at the calendar. Hold 24 I don't know, Dan, can you be in two places 25 on. 25 at once? Page 159 Page 160 1 1 MR. MLENAK: The Municipal Calendar is open matter. Just book it. 2 2 CHAIRMAN FLANAGAN: -- and if you can't on May the 9th. 3 CHAIRMAN FLANAGAN: I can do the 9th. Is 3 make it Mr. Schneider is going to make a decision on 4 there anybody that cannot do the 9th? 4 whether he wants to --5 BOARD MEMBER ADDONIZIO: The 9th is the 5 BOARD MEMBER MASELLI: This is the crazy 6 Township Committee. 6 season. 7 SECRETARY TAGLAIRINO: So you have the 3rd, 7 CHAIRMAN FLANAGAN: I hear you. 8 8 MR. SCHNEIDER: So is May -- the 3rd, the the 10th. 9 CHAIRMAN FLANAGAN: What about the 10th for 9 9th, and the 10th all work for me. 10 10 anyone? Does anyone have a problem with the 10th? CHAIRMAN FLANAGAN: The 3rd does not work 11 MR. SCHNEIDER: The 3rd, the 9th, the 10th 11 for me. The 9th somebody else said no to. We can't 12 all work for us. 12 use the room. MR. SIMON: And for us as well. 1.3 13 MR. SCHNEIDER: So how about May 10th, 7:00 14 14 CHAIRMAN FLANAGAN: All right. Does p.m., in person matter's carried. Applicant grants an 15 15 anybody have -- the 10th is what's being proposed. extension of time through May 10th. 16 Does anybody have an issue with the 10th, going once, 16 CHAIRMAN FLANAGAN: Hold on. Yes, May 17 any objection? 17 10th, 7:00 p.m. right here. No further notice is 18 BOARD MEMBER MASELLI: Listen, you can 18 required. The Applicant grants an extension. 19 shoot at any date you want right now, but I might not 19 MR. SCHNEIDER: Just so we're clear, it 20 be able to make it with a day's notice. I'm just 20 would be my sincere hope if we had 30 minutes left of 21 21 letting you know that's the kind of schedule that I Mr. Master's cross, Mr. Steck, public comment, and then 2.2 have. I'm pretty good at being here, though. 22 hopefully a final adjudication, does that sound 23 CHAIRMAN FLANAGAN: Then I think we book 23 reasonable? 24 it --24 CHAIRMAN FLANAGAN: I am ready to vote as 25 25 BOARD MEMBER MASELLI: It doesn't really soon as --
